SUPPLEMENTARY INFORMATION:

I. Background

The Bureau of Indian Affairs (BIA) maintains the “National Irrigation Information Management System (NIIMS), Interior, BIA–34” system of records. The primary purpose of this system is to facilitate billing, debt management, and collection of construction, operation and maintenance costs for irrigation projects that are reimbursable to the Federal government. The changes to the system include updating the system location, categories of individuals covered by the system, categories of records in the system, authority for maintenance of the system, routine uses, storage, safeguards, retention and disposal, system manager and address, and records source categories. The system notice was last published in the Federal Register on July 15, 2008 (Volume 73, Number 136).

The amendments to the system notice will be effective as proposed at the end of the comment period (the comment period will end 40 days after the publication of this notice in the Federal Register), unless comments are received which would require a contrary determination. The Department of the Interior (DOI) will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended (5 U.S.C. 552a), embodies fair information principles in a statutory framework governing the means by which Federal Agencies collect, maintain, use, and disseminate individuals’ personal information. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens or lawful permanent residents. As a matter of policy, DOI extends administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations, 43 CFR part 2.

The Privacy Act requires each agency to publish in the Federal Register a description denoting the type and character of each system of records that the agency maintains and the routine uses of each system to make agency record-keeping practices transparent, notify individuals regarding the uses of their records, and assist individuals to more easily find such records within the agency. Below is the description of the Bureau of Indian Affairs “National
Irrigation Information Management System (NIIMS), Interior, BIA–34,” system of records.

In accordance with 5 U.S.C. 552a(f), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: January 16, 2013.

Willie S. Chism,
Indian Affairs Privacy Act Officer, Office of the Assistant Secretary for Indian Affairs.
