The State’s Submittal

A. What rules did the State submit?

Table 1 lists the rules we are approving with the dates that they were adopted by the local air agency and submitted by the California Air Resources Board (CARB).

TABLE 1—SUBMITTED RULES

Local agency	Rule #	Rule title	Adopted	Submitted
SCAQMD	1150.1	Control of Gaseous Emissions from Municipal Solid Waste Landfills.	04/01/11	09/27/11
SCAQMD	1127	Emissions Reductions from Livestock Waste	08/06/04	10/05/06

On October 24, 2011 and October 24, 2006, EPA determined that the submittals for SCAQMD Rules 1150.1 and 1127, respectively, met the completeness criteria in 40 CFR part 51 Appendix V, which must be met before formal EPA review.

B. Are there other versions of these rules?

We approved an earlier version of Rule 1150.1 into the SIP on July 1, 2002 (67 FR 44062). SCAQMD adopted revisions to the SIP-approved version on April 1, 2011 and CARB submitted them to us on September 27, 2011.

C. What is the purpose of the submitted rule and rule revision?

VOCs help produce ground-level ozone and smog, which harm human health and the environment. Section 110(a) of the CAA requires States to submit regulations that control VOC emissions. EPA’s technical support documents (TSD) have more information about these rules.

SCAQMD Rule 1150.1, “Control of Gaseous Emissions from Municipal Solid Waste Landfills,” is an amended rule that regulates landfill gas emissions. The submitted rule applies to both active and inactive municipal solid

waste (MSW) landfills and defines an active MSW landfill as one that has received solid waste on or after November 8, 1987.

The two previous versions of Rule 1150.1 (April 10, 1998 and March 10, 2000) focused on controlling VOC emissions, as well as toxic air contaminant (TAC) emissions. SCAQMD’s intent was to reduce the contribution of these pollutants to atmospheric ozone, avoid public nuisance complaints from odorous compounds, and prevent the detriment to public health caused by such emissions.
