Certain FHA-insured loans will be exempted from this notice. Loans made pursuant to the FHA Streamline Refinance without an appraisal program, which has no LTV calculation, and the 203(k) Rehabilitation Mortgage Insurance Program, which utilizes two different LTV calculations in addition to the cost of improvements, are exempted. The Secretary may, as he deems necessary, exempt from this notice loans from other programs by publishing a **Federal Register** notice for comment.

III. Solicitation of Public Comments

FHA welcomes comments on the proposals set forth in this notice, including whether there may be additional FHA programs that should be exempted from this notice, for a period of 30 calendar days. FHA also welcomes comments on the economic effects in the proposals set forth in this notice. All comments will be considered in the development of the **Federal Register** notice that will follow this proposed notice and that will establish the maximum LTV for loans over a specified amount. The final notice will address any significant issues raised by the public comments, and may include changes to the LTV requirements proposed in this notice. The final notice will also announce the effective date for the LTV requirements.

IV. Environmental Review

This notice involves discretionary establishment and review of loan limits which do not constitute a development decision affecting the physical condition of specific project areas or building sites. Accordingly, under 24 CFR 50.19(c)(6), this notice is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321).

³ *Id.* at 17. The FHA Actuarial Report advises that the majority of FHA endorsements have historically had LTV ratios above 95 percent.

⁴ HUD Handbook 4.155.2, (Lender's Guide to the Single Family Mortgage Insurance Process) at Chapter 7, pertaining to Mortgage Insurance Premiums, notes that in most of the FHA mortgage insurance programs, FHA collects an UFMIP and an annual insurance premium, which is collected in monthly installments. The total FHA-insured first mortgage on a property is limited to 100 percent of the appraised value and the UFMIP is required to be included within that limit. However, the UFMIP is otherwise not considered when determining compliance with statutory loan limits or LTV limits in accordance with Section 203(d) of the National Housing Act. These systems are those maintained by HUD that includes personally identifiable information provided by individuals from which information is retrieved by a name of unique identifier. The system revisions encompass a wider range of programs and services in order to provide notification of a comprehensive view of the Department's data collection and

management practices. Under this republication, the Department proposes to update 17 Privacy Act systems of records, delete 10 obsolete systems of records, and implement a new coding structure for it systems of records.

This republication allows HUD to organize and re-publish up-to-date information for these systems of records in a more useful format. The system modifications and deletions incorporate Federal privacy requirements, and HUD policy requirements. The Privacy Act provides certain safeguards for an individual against and invasion of personal privacy by requiring Federal agencies to protect records contained in an agency system of records from unauthorized disclosure, ensure that information is current for its intended use, and that adequate safeguards are provided to prevent misuse of such information. Additionally, the updates reflect the Department's focus on industry best practices in protecting the personal privacy of the individuals covered by each system notification. This notice for each system of records state the name and location of the record system, the authority for and manner of it operations, the categories of individuals that it covers, the type of records that it contain, the sources of the information for those records, the routines uses of each systems of records, and the system of records exemption types. In addition, each notice include the business address of the HUD officials who will inform interested persons of the procedures whereby they may gain access to and/or request amendments to records pertaining to them. The routine uses that apply to this publication are reiterated based on past publication to clearly communicate the ways in which HUD continues to conducts some of its business practices.

Since the republication of system of records notices does not meet the threshold requirements for new or amended system a report was not submitted to the Office of Management and Budget (OMB), the Senate Committee on Homeland Security and Governmental Affairs, and the House Committee on Government Reform as instructed by Paragraph 4c of Appendix 1 to OMB Circular No. A-130, "Federal Agencies Responsibilities for Maintaining Records About Individuals," July 25, 1994 (59 FR 37914).

PURPOSES:

FHEO TEAPOTS is the system that maintains case file data when further investigation is warranted, under a filed housing discrimination complaint. This is where the housing discrimination complaint inquiries and case files are documented and stored during the investigation process. Information on the complainants is collected on a case-by-case basis only if relevant to the particular case. The origination of a complaint begins with the origination of

the HUD Form 903. The HUD Form 903 is used for filing discrimination complaints over unfair housing practices. This form is available in paper and on-line. The public may submit a HUD Form 903 (a housing discrimination complaint form) via the internet or by mail. HUD Form 903 collects initial potential case information for assessment and turns the information over to the appropriate regional office jurisdiction. Information gathered through the HUD Form 903 system opens an inquiry with FHEO that is explored through further discussion between FHEO staff and the complainant. These discussions gather additional data that establish jurisdiction and determine whether or not to launch an investigation. HUD's FHEO also use these records within TEAPOT's to monitor the quality of the investigations performed by authorized non-Federal agencies, and to determine the amount these agencies should be paid for performing the investigating. A paper case file that includes the information tracked in TEAPOTS, as well as additional information, is maintained outside of TEAPOTS.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All persons filing a housing discrimination complaint (known as Complainants) and their representatives; all persons and/or organizations identified by Complainants as having committed housing discrimination (known as Respondents) and their representatives; all those investigating and reviewing the housing discrimination complaint

Because TEAPOTS is the fair housing complaints database, it normally maintains the following

personal information of the Complainant, other aggrieved parties information, the Respondent, and/or witnesses based on the issues and bases of what is alleged in the complaint cases. Also included is race, national origin, disability (mental/physical); family status (pregnancy, families with children under 18); religion types of personal information, documents that may be maintained and found in TEAPOTS; Letters from physicians/medical records (in disability-based/reasonable accommodation claims); Rental lease agreements; Financial and loan information (in fair lending cases); Name, age/date of birth of minor children, and number of dependents (in family status cases, which includes families with children under the age of 18.)

SYSTEM OF RECORDS NO.:

OIG/GIP.02

SYSTEM NAME:

Auto Investigation and Case Management Information Subsystem (AI/CMISS).

SYSTEM LOCATION:

HUD OIG Headquarters, 451 Seventh Street SW., Washington DC.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals covered consist of: (1) HUD program participants and HUD employees who are associated with an activity that OIG is investigating or evaluating; (2) requesters of an OIG investigative or other activity; and (3) persons and entities performing some other role of significance to the OIG's efforts, such as relatives or business associates of HUD program participants or employees, potential witnesses, or persons who represent legal entities that are connected to an OIG investigation or other activity. The system also tracks information pertaining to OIG staff handling the investigation or other activity, and may contain contact names for relevant staff in other agencies.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records consist of investigatory material compiled and/or generated for law enforcement purposes in connection with investigations and other activities performed by OIG staff. These materials include information regarding the planning, conduct and prosecution of investigations of HUD program participants and employees, legal assistance requests, information requests, responses to such requests, reports of investigations, etc. Data resources include the individual's name, Social Security Number, date of birth, home address, home telephone number, personal email address, Employee Identification Number, Tax Identification, Driver License Number and name, passport information, State Identification, Narcotics and Dangerous Drugs Information System, Federal Bureau Investigation Number ; Race/ethnicity, Gender, Employment History, Education, Income, and Financial information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The Inspector General Act of 1978 authorizes the Inspector General to conduct, supervise and coordinate audits and investigations relating to the programs and operations of HUD, to engage in other activities that promote economy and efficiency in the programs and operations of HUD, and to receive and investigate complaints concerning possible violations of law, rules, or regulations, or mismanagement, gross waste of funds, abuse of authority, or a substantial or specific danger to the public health or safety.

PURPOSES:

AI/CMISS provides HUD OIG Investigations with an automated system which manages cases under investigation from their inception to

their closing through a centralized data repository of case information. AI/CMISS and its environment is a secure environment where access to information is controlled through a formal process of checks and authorizations involving a hierarchical supervisory structure. Special Agents in Charge (SAC), Assistant Special Agents in Charge (ASAC), Supervisory Forensic Auditors (SFA), Forensic Auditors (FA), Special Agents (SA) and support staff, document all steps in their assigned activities. Additionally, due to judicial involvement in some of the cases, the files kept and maintained by HUD OIG may be made available to the courts under discovery. AI/CMISS provides data that is currently available through the intranet to the investigators and auditors. This provides a method for remote HUD OIG users and traveling employees to access the AI/CMISS systems from their laptops regardless of whether or not they are located within a HUD OIG office. Both Systems support the HUD OIG requirement to maintain a detailed audit trail of cases to closure. This requires a system, which will be capable of capturing and maintaining data integrity during the complete case cycle while ensuring data privacy and confidentiality.

SYSTEM LOCATION:

Department of Housing and Urban Development, 451 Seventh Street SW., Washington DC 20410

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

DHAP participants who were displaced by Hurricanes Katrina or Rita, who received rental subsidy through the DHAP and agreed to all program requirements including case management.

CATEGORIES OF RECORD IN THE SYSTEM:

Files contain identifying information about program participants: and their household members at the time of program implementation: such as name, social security number, FEMA ID number of the eligible head of household member, birth date, current telephone number, and current address. The files hold sensitive information about education level, criminal records, income/financial data, employment and training, disability status, medical history information, and information that were used to assess any barriers to permanent housing attainment and/or increased self- sufficiency.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Legal authority for the data maintained in DHAP is based on the Department of Homeland Security's general grant authority under section 102(b)(2) of the Homeland Security Act, 6 U.S.C. 112, and sections 408(b)(1), 426 and 306(a) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), 42 U.S.C. 5174(b)(1), 5189d and 5149(a), respectively.

outcomes. In such cases, PD&R and its approved researchers will further evaluate the data presented by DHAP to produce research reports that will include aggregate level data based on higher level demographic variables that will not disclose information that can be used to identify any individual represented in the system. The records stored hold pertinent data relating to family self-sufficiency, permanent housing status and service needs. The system was procured through contract number: C-DEN-02199 and allowed DHAP grantees to implement and report case management services for FEMA's DHAP-Ike program, for which HUD was the servicing agent. ⁴ <http://portal.hud.gov/hudportal/documents/huddoc?id=22256x8ADMH.pdf>.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

DHAP- Ike participants displaced by hurricanes Gustav and Ike. All family members who were deemed eligible to participate in the DHAP- Ike program by the Federal Emergency Management Agency (FEMA).

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain identifying information about program participants and their household members at program implementation including: name, social security number, FEMA ID number of the eligible head of household member, birth date, current telephone number and current address. The files hold sensitive information about education level, race/ethnicity, gender/sex, employment and training needs, elderly and disabled status, social service needs and service referrals. Information regarding education level, criminal records, income/financial data, employment and training, disability status, medical history information, and social service needs as information that were used to assess any barriers to permanent housing attainment and/or increased self-sufficiency.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Legal authority for DHAP is based on the Department of Homeland Security's general grant authority under section 102(b)(2) of the Homeland Security Act, 6 U.S.C. 112, and sections 408(b)(1), 426 and 306(a) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), 42 U.S.C. 5174(b)(1), § 5189d and § 5149(a), and HUD's 2009 Appropriations Act modified Section 904 of the Stewart B. McKinney Act of 1988, as amended, to include Disaster Housing Assistance Program Ike (DHAP-Ike) as a "program" of HUD, respectively.

PURPOSES:

ETO captured pertinent data relating to family self-sufficiency, permanent housing status and service needs. The data for ETO was collected to support DHAP-Ike grantees in their case management efforts and HUD staff in their program monitoring activities and providing required reports to FEMA in fulfillment of its responsibilities outlined within the Inter Agency Agreement (IAA). The case manager used this information to identify appropriate service referrals, to help prepare clients for the end of DHAP- Ike case management which occurred on September 30, 2011. As such, the DHAP-Ike still requires further analysis and evaluation by the Department's Office of Policy Development and

Research (PD&R), Program Management and Research Division to allow research and evaluation of the national program outcomes. In such cases, PD&R and its approved researchers will further evaluate the data presented by DHAP-Ike to produce research reports. These reports will include aggregate level data based on higher level demographic variables that will not disclose information that can be used to identify any individual represented in the data retained by HUD. The records stored hold pertinent data records relating to family self-sufficiency, permanent housing status and service needs. The system was procured through contract number: C-DEN-02332 which allowed grantees to implement and report case management services for FEMA's DHAP- Ike program, for which HUD was the servicing agent. The system and data input by grantees assisted with the administration of rental housing assistance and case management services to individuals and families whose residences were rendered uninhabitable as a result of Hurricanes Gustav and Ike. The data stored in this system of record may be used for research and statistical purposes. In such cases, data presented in any research report will be aggregated to a level that does not disclose information that can be used to identify any individual represented in the system.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, HUD may disclose information contained in this system of records without the consent of the subject individual if the disclosure is compatible with the purpose for which the record was collected under the following routine use:

Records under this routine use may not be used in whole or in part to make decisions that affect the rights, benefits or

privileges of specific individuals. The results of the matched information may not be disclosed in identifiable form. Any data presented will be provided at the aggregate level.

SUPPLEMENTARY INFORMATION:

Background

The Act (16 U.S.C. 1531 *et seq.*) prohibits activities with endangered and threatened species unless a Federal permit allows such activity. Along with our implementing regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17, the Act provides for permits, and requires that we invite public comment before issuing these permits.

A permit granted by us under section 10(a)(1)(A) of the Act authorizes applicants to conduct activities with U.S. endangered or threatened species for scientific purposes, enhancement of propagation or survival, or interstate commerce (the latter only in the event that it facilitates scientific purposes or enhancement of propagation or survival). Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, and 50 CFR 17.62 for endangered plant species, and
