Cranes and Derricks in Construction: Revising the Exemption for Digger Derricks**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.**ACTION:** Withdrawal of direct final rule.

SUMMARY: OSHA published a direct final rule and a companion notice of proposed rulemaking on November 9, 2012, to broaden the exemption for digger derricks in its construction standard for cranes and derricks. OSHA received a significant adverse comment on the direct final rule and is, therefore, withdrawing the direct final rule. OSHA will issue a final rule at a later date based on the notice of proposed rulemaking.

DATES: OSHA published the direct final rule for revising the exemption for digger derricks on November 9, 2012 (77 FR 67270), and is withdrawing that direct final rule as of February 7, 2013.

In those documents, OSHA stated that if it received a significant adverse comment, the Agency would “publish a timely withdrawal of this direct final rule” and determine whether to proceed with the rulemaking on the basis of the proposed rule. OSHA received one significant adverse comment on the direct final rule (Docket ID OSHA–2012–0025–0008) and is, therefore, withdrawing the direct final rule. BILLING CODE 7709–01–P**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration****50 CFR Part 679**

[Docket No. 111207737–2141–02]

RIN 0648–XC482

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 620 in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 620 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the A season allowance of the 2013 total allowable catch of pollock for Statistical Area 620 in the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 4, 2013, through 1200 hrs, A.l.t., March 10, 2013.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The A season allowance of the 2013 total allowable catch (TAC) of pollock in Statistical Area 620 of the GOA is 16,433 metric tons (mt) as established by the final 2012 and 2013 harvest specifications for groundfish of the GOA (77 FR 15194, March 14, 2012) and inseason adjustment (78 FR 267, January 3, 2013).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the A season allowance of the 2013 TAC of pollock in Statistical Area 620 of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed

fishing allowance of 16,134 mt and is setting aside the remaining 300 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 620 of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Acting Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) and § 679.25(c)(1)(ii) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it

would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of directed fishing for pollock in Statistical Area 620 of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of February 3, 2013.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 4, 2013.

Kara Meckley,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
