The Commission hereby provides notice that on February 1, 2013, the Postal Service filed a Request pursuant to 39 U.S.C. 3642 and 39 CFR 3020.30 et seq., seeking to remove Confirm service from the market dominant product list in the Mail Classification Schedule.¹

**Product description.** Confirm service provides value to mailers by allowing them to receive raw processing scan data when identifying barcodes (Intelligent Mail or PLANET Code) are placed onto mailpieces. Request at 1. The scan data are used to estimate when mailpieces will be delivered to recipients, allowing mailers to utilize this information to coordinate additional outreach with the delivery of mailpieces. *Id.* at 1–2.

Since the scan data offered through Confirm service provides added value to mailers, the Postal Service has incorporated the scan data function into Intelligent Mail barcode (IMb) Tracing, which is available at no fee as part of the classes of mail containing letters and flats. *Id.* at 2. As a result, mailers will continue to have access to the scan data when they place an IMb on their mailpieces. *Id.* Since there is a no fee alternative and all Confirm service subscriptions expired on January 21, 2013, the Postal Service states that removal of Confirm service from the market dominant product list fulfills the applicable criteria of 39 U.S.C. 3642.

Public documents. The Request includes the following supporting publicly-available material:

- **Attachment A**—A copy of Governors’ Resolution No. 12–09, adopted October 5, 2012, authorizing the Request;
