SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–68851; File No. SR–BATS–2013–009]

Self-Regulatory Organizations; BATS Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Extend the Pilot Program Related to Trading Pauses Due to Extraordinary Market Volatility

February 6, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the ''Act'') [1] and Rule 19b–4 thereunder,[2] notice is hereby given that on January 30, 2013, BATS Exchange, Inc. (''BATS'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange has designated this proposal as a ''non-controversial'' proposed rule change pursuant to Section 19(b)(3)(A) of the Act [3] and Rule 19b–4(f)(6)(iii) thereunder,4 which renders it effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to extend a pilot program previously approved by the Commission related to Rule 11.18, entitled ''Trading Halts Due to Extraordinary Market Volatility.''

The text of the proposed rule change is available at the Exchange's Web site at *http://www.batstrading.com*, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to extend the effectiveness of the Exchange's rule related to individual stock circuit breakers, which is contained in Rule 11.18(d) and Interpretation and Policy .05 to Rule 11.18. The rule, explained in further detail below, is currently operating as a pilot program set to expire on February 4, 2013.

On June 10, 2010, the Commission approved on a pilot basis changes to BATS Rule 11.18 to provide for uniform market-wide trading pause standards for individual securities in the S&P 500® Index that experience rapid price movement.[5] Later, the Exchange and other markets proposed extension of the trading pause standards on a pilot basis to individual securities in the Russell 1000® Index and specified Exchange Traded Products, which changes the Commission approved on September 10, 2010.[6] More recently, the Exchange proposed expansion of the pilot program to apply to all NMS stocks.[7] This expansion was approved on June 23, 2011.[8] The pilot program relating to trading pause standards has been extended five times since its inception.[9] The Exchange believes the benefits to market participants from the individual stock trading pause rule should be continued on a pilot basis until individual stocks become, on a rolling basis, subject to the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS

under the Act (the ''Limit Up-Limit Down Plan'' or ''Plan'').[10]

The Exchange, in conjunction with other national securities exchanges and FINRA, recently filed an amendment to the Plan to change the date of initial operations of the Plan from February 4, 2013 to April 8, 2013. The extension proposed herein would allow the pilot to continue to operate without interruption until implementation of the Limit Up-Limit Down Plan, which will occur on a rolling basis.

The Exchange proposes to extend the effective date of the pilot from the current scheduled expiration date of February 4, 2013 until February 4, 2014. The Exchange also proposes to modify the definition of ''Circuit Breaker Securities'' subject to the individual stock circuit breaker pilot to mean all NMS stocks other than NMS stocks subject to the Limit Up-Limit Down Plan. Accordingly, as securities become subject to the Limit Up-Limit Down Plan, they will no longer be Circuit Breaker Securities subject to the individual stock trading pause pilot.

2. Statutory Basis

The Exchange believes that its proposal is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.[11] In particular, the proposal is consistent with Section 6(b)(5) of the Act,[12] because it would promote just and equitable principles of trade, remove impediments to, and perfect the mechanism of, a free and open market and a national market system. The proposed rule change is also consistent with Section 11A(a)(1) of the Act[13] in that it seeks to assure fair competition among brokers and dealers and among exchange markets. The Exchange believes that the pilot program promotes just and equitable principles of trade in that it promotes transparency and uniformity across markets concerning decisions to pause trading in a security when there are significant price movements. The Exchange believes that the pilot program is working well, that it has been infrequently invoked during the previous months, and that the extension of the pilot will allow the Exchange to further assess the effect of the pilot on the market until securities become subject to the Limit Up-Limit Down Plan on a rolling basis.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed changes are being made to extend the operation of the trading pause pilot to allow the pilot to continue to operate without interruption until implementation of the Limit Up-Limit Down Plan, which contributes to the protection of investors and the public interest. Other competing equity exchanges are subject to the same trading pause requirements specified in the Plan. Thus, the proposed changes will not impose any burden on competition while providing trading pause requirements specified in the Plan.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act[14] and Rule 19b–4(f)(6) thereunder.[15] Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b–4(f)(6)(iii) thereunder.

A proposed rule change filed under Rule 19b–4(f)(6)[16] normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b4(f)(6)(iii),[17] the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because such waiver would allow the pilot program to continue uninterrupted. Accordingly, the Commission hereby grants the Exchange's request and designates the proposal operative upon filing.[18]

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

[Release No. 34–68839; File No. SR–NASDAQ–2013–014]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Add Routing Functionality to the NASDAQ System

February 6, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1], and Rule 19b–4[2] thereunder, notice is hereby given that on January 23, 2013, The NASDAQ Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by Nasdaq. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

(a) Order Routing Process

(1) No change.

(A) No change.

(i)–(xi) No change.

(xii) QDRK is a routing option under which orders check the System for available shares and simultaneously route the remaining shares to destinations on the System routing table that are not posting Protected Quotations within the meaning of Regulation NMS. If shares remain un-executed after routing, they are posted on the book. Once on the book, should the order subsequently be locked or crossed by another market center, the System will not route the order to the locking or crossing market center.

(xiii) QCST is a routing option under which orders check the System for available shares and simultaneously route the remaining shares to destinations on the System routing table that are not posting Protected Quotations within the meaning of Regulation NMS and to certain, but not all, exchanges. If shares remain un-executed after routing, they are posted on the book. Once on the book, should the order subsequently be locked or crossed by another market center, the System will not route the order to the locking or crossing market center.

Orders that do not check the System for available shares prior to routing may not be sent to a facility of an exchange that is an affiliate of Nasdaq, except for orders that are sent to the NASDAQ OMX BX Equities Market or to the NASDAQ OMX PSX facility of NASDAQ OMX PHLX.

(B) No change.

(b)–(d) No change.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to attract additional business to and enhance the functionality offered by Nasdaq by providing additional optional outbound routing services. Most equities exchanges today provide routing services and the Exchange offers a variety of routing strategies. Currently, Rule 4758, Order Routing, describes the order routing process and states that all routing shall be in compliance with Rule 611 of Regulation NMS under the Act.[3] Furthermore, it enumerates Nasdaq's routing strategies: DOT, DOTI, STGY, SKNY, SCAN, SKIP, TFTY, MOPP, SAVE, SOLV, LIST and CART.

Proposed Rule 4758(a)(1)(A)(xii) will provide that QDRK is a routing option under which orders check the System for available shares and simultaneously route to certain destinations on the System routing table that are not posting Protected Quotations within the meaning of Regulation NMS (i.e. "dark venues" or "dark pools"). If shares remain un-executed after routing, they are posted on the book. Once on the book, should the order subsequently be locked or crossed by another market center, the System will not route the order to the locking or crossing market center. This strategy is intended to attract market participants that seek to execute on Nasdaq or on dark pools without executing on another exchange. Members may seek to execute in this manner to interact with resting liquidity in addition to that available on Nasdaq, while also minimizing market impact and transaction fees.

For example, if the National Best Bid/Offer ("NBBO") is $10.00–$10.01, and Nasdaq, DarkVenueA and ARCA each offer 100 shares at $10.01, a QDRK order to buy 1000 shares at $10.01 IOC will be handled as follows: 100 shares for execution on Nasdaq and 100 shares routed to DarkVenue A simultaneously at $10.01; the remaining 800 shares are not routed and not executed, and cancelled back to the entering participant because it was an IOC order. The order did not route to ARCA because it is not a dark venue. As a second example, if the NBBO is $10.00–$10.01, and Nasdaq, DarkVenueA and ARCA each offer 100 shares at $10.01, a QDRK order to buy 1000 shares at
