

We estimate that pipelines will have the initial implementation burden of one hour and may annually review or make revisions to their list of designated agents. The total annual cost for all respondents is: \$20,190.

Title: FERC-545, Gas Pipeline Rates: Rate Change (Non-Formal), OMB Control No. 1902-0154; FERC-549, Gas Pipeline Rates: NGPA Title III Transactions and Part 341, OMB Control No. 1902-0086; and FERC-550, Oil Pipeline Rates: Tariff Filings, OMB Control No. 1902-0089.

Action: Revised company registration information requirements.

Respondents: Interstate and intrastate natural gas pipelines and interstate oil pipelines.

Frequency of Responses: One-time initial implementation and periodic updates as needed.

Need for Information: The changes are being implemented to enhance the security of natural gas and oil pipelines' company registration accounts and to provide pipelines with an enhanced ability to manage filing permissions.

Internal Review: We have reviewed the changes and determined that the changes are necessary, conforming to the Commission's need for efficient information collection, communication, and management within the energy industry. We have assured ourselves, by means of internal review, that there is specific, objective support for the burden estimates associated with the information collection requirements.

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
