The U.S. Department of Energy (DOE)

Office of Energy Efficiency and Renewable Energy (EERE) has

developed and launched a new

consumer-focused Web site (<http://openei.org/utilityaccess>) with the

capability to map how and what

electricity use data utilities provide to

their customers. An online

questionnaire device captures and

publishes the necessary information as

a series of web-based maps upon

completion by electricity providers.

Each electric utility has the opportunity

to fill out a web-based questionnaire

that will automatically generate the

informational maps. Consumers can

visit the maps and Web site to learn

about data access offered by their utility
