

results of performance monitoring for the three preceding fiscal years. The additional information collected through this process will allow SAMHSA to report on the results of

these performance outcomes as well as be consistent with the specific performance domains that SAMHSA is implementing as the NOMs, to assess the accountability and performance of

its discretionary and formula grant programs.

Note that there are no changes to the instrument or the burden hours from the previous OMB submission.

NOTES:

1. This table represents the maximum additional burden if adult respondents, for the discretionary services programs including ATR, provide three sets of responses/data and if CSAT adolescent respondents, provide four sets of responses/data.

2. Added burden proportion is an adjustment reflecting customary and usual business practices programs engage in (e.g., they already collect the data items).

3. Estimate based on 2010 hourly wage of \$19.97 for U.S. workforce eligible from the Bureau of Labor Statistics

4. Screening, Brief Intervention, Treatment and Referral (SBIRT) grant program:

*27,679 Brief Intervention (BI) respondents complete sections A & B of the GPRA instrument, all of these items are asked during a customary and usual intake process resulting in zero burden; and

*9,200 Brief Treatment (BT) & Referral to Treatment (RT) respondents complete all sections of the GPRA instrument.

5. Data Extract by Grants: Grant burden for capturing customary and usual data.

6. Upload: all 24 ATR grants upload data.

7. Upload: 7 of the 9 SBIRT grants upload data; the other 2 grants conduct direct data entry.

Written comments and recommendations concerning the proposed information collection should be sent by March 21, 2013 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the

Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Transformation Accountability Reporting System—(OMB No. 0930-0285)—Extension

The Transformation Accountability (TRAC) Reporting System is a real-time, performance management system that captures information on the substance abuse treatment and mental health services delivered in the United States. A wide range of client and program information is captured through TRAC for approximately 700 grantees. This request includes an extension of the currently approved data collection effort.

This information collection will allow SAMHSA to continue to meet the Government Performance and Results Act (GPRA) of 1993 reporting requirements that quantify the effects and accomplishments of its programs, which are consistent with OMB guidance. In order to carry out section 1105(a) (29) of GPRA, SAMHSA is required to prepare a performance plan for its major programs of activity. This plan must:

- Establish performance goals to define the level of performance to be achieved by a program activity;
- Express such goals in an objective, quantifiable, and measurable form;
- Briefly describe the operational processes, skills and technology, and the human, capital, information, or other resources required to meet the performance goals;
- Establish performance indicators to be used in measuring or assessing the relevant outputs, service levels, and outcomes of each program activity;
- Provide a basis for comparing actual program results with the established performance goals; and
- Describe the means to be used to verify and validate measured values.

In addition, this data collection supports the GPRA Modernization Act of 2010 which requires overall organization management to improve agency performance and achieve the mission and goals of the agency through the use of strategic and performance planning, measurement, analysis, regular assessment of progress, and use of performance information to improve the results achieved. Specifically, this data collection will allow CMHS to have the capacity to report on a consistent set of performance measures across its

various grant programs that conduct each of these activities. SAMHSA's legislative mandate is to increase access to high quality substance abuse and mental health prevention and treatment services and to improve outcomes. Its mission is to improve the quality and availability of treatment and prevention services for substance abuse and mental illness. To support this mission, the Agency's overarching goals are:

- **Accountability**—Establish systems to ensure program performance measurement and accountability
- **Capacity**—Build, maintain, and enhance mental health and substance abuse infrastructure and capacity
- **Effectiveness**—Enable all communities and providers to deliver effective services

Each of these key goals complements SAMHSA's legislative mandate. All of SAMHSA's programs and activities are geared toward the achievement of these goals and performance monitoring is a collaborative and cooperative aspect of this process. SAMHSA will strive to coordinate the development of these goals with other ongoing performance measurement development activities.

The total annual burden estimate is shown below:

ESTIMATES OF ANNUALIZED HOUR BURDEN

Total	16,623				29,298		885,135

¹ Based on minimum wage.

² Based on an estimate that 35 percent will leave the program annually, and it will be possible to conduct discharge interviews on 40 percent of those who leave the program.

³ Based on 13 percent non-response for those eligible at baseline (18,039); baselines are required for all consumers served or an admin baseline for non-responders.

⁴ Based on 40 percent non-response for those eligible for six-month reassessment.

⁵ Based on 60 percent non-response for those discharged.

⁶ This is the maximum burden if all consumers complete the baseline and periodic reassessment interviews.

⁷ To be completed by grantee Project Directors, hence the higher hourly wage.
