must also be determined. Loads must be
determined for critical fuel and payload
distributions and centers of gravity.
Nose gear loads, as well as airframe
loads, must be determined. The airplane
must support these loads as described in
§ 25.305.

I. Background

In the Federal Register of January 16,
2013 (78 FR 3646), FDA published a
proposed rule entitled “Current Good
Manufacturing Practice and Hazard
Analysis and Risk-Based Preventive
Controls for Human Food” with a 120-
day comment period on the provisions
of the proposed rule and a 30-day
comment period on the information
collection provisions that are subject to
review by OMB under the Paperwork
3520). Comments on the provisions of
the rule and on the information
collection provisions will inform FDA’s
rulemaking to modernize the regulation
for “Current Good Manufacturing
Practice In Manufacturing, Packing, or
Holding Human Food” and to add
requirements for domestic and foreign
facilities that are required to register
under the Federal Drug, Food,
and Cosmetic Act to establish and
implement hazard analysis and risk-
based preventive controls for human
food.

OMB and FDA have received two
requests for a 90-day extension of the
comment period for the information
collection provisions of the proposed
rule. The requests conveyed concern
that the current 30-day comment period
does not allow sufficient time to
develop a meaningful or thoughtful
response to the information collection
provisions submitted to OMB under the

We have considered the requests and
are extending the comment period for
the information collection for 90 days,
until May 16, 2013. We believe that a
90-day extension allows adequate time
for interested persons to submit
comments without significantly
delaying rulemaking on these important
issues. A 90-day extension also will
make the comment period for the
information collection provisions the
same as the comment period for the
provisions of the proposed rule.

II. Request for Comments

Interested persons may either submit
electronic comments regarding the
information collection to
oira_submission@omb.eop.gov or fax
written comments to the Office of
Information and Regulatory Affairs,
OMB, Attn: FDA Desk Officer, FAX:
202–395–7285. All comments should be
identified with the title “Current Good
Manufacturing Practice and Hazard
Analysis and Risk-Based Preventive
Controls for Human Food.”

Leslie Kux,
Assistant Commissioner for Policy.
