DEPARTMENT OF JUSTICE
Office of Justice Programs

[OJP (NIJ) Docket No. 1615]

Review of Gun Safety Technologies

AGENCY: National Institute of Justice, JPO, DOJ.

ACTION: Notice.

SUMMARY: Following the President’s Plan to reduce gun violence released on January 16, 2013, the U.S. Department of Justice, Office of Justice Programs, National Institute of Justice (NIJ) is conducting a review of existing and emerging gun safety technologies and plans to issue a report on the availability and use of those technologies. NIJ seeks input from all interested stakeholders to help inform its technology assessment and market research of existing and emerging gun safety technologies that would be of interest to the law enforcement and criminal justice communities and others with an interest in gun safety. Representative stakeholders include, but are not limited to, law enforcement, gun safety subject matter experts, firearms manufacturers, firearms experts, manufacturing engineers, biometrics specialists, radio frequency identification (RFID) engineers, microelectronics experts, or others with relevant training and experience. Those individuals wishing to provide relevant comments or information are directed to the following Web site: https://www.justnet.org/gun_safety_technology/

RELEVANT INFORMATION: On February 4, 2013, the Commission determined that it should proceed to full reviews in the subject five-year reviews pursuant to section 751(c)(5) of the Act. The Commission found that the domestic interested party group response to its notice of institution (77 FR 66078, November 1, 2012) was adequate and that the respondent interested party group responses with respect to Taiwan and Thailand were adequate, and decided to conduct full reviews of the antidumping duty orders on hot-rolled steel products from China, India, Indonesia, and Ukraine. The Commission found that the respondent interested party group response with respect to India, China, Indonesia, and Ukraine was adequate. However, the Commission determined to conduct full reviews concerning the orders on hot-rolled steel products from China, India, Indonesia, and Ukraine to promote administrative efficiency in light of its decision to conduct full reviews with respect to the orders on subject imports from Taiwan and Thailand. A record of the Commissioners’ votes, the Commission’s statement on adequacy, and any individual Commissioner’s statements will be available from the Office of the Secretary and at the Commission’s Web site.

Authority: These reviews are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission’s rules.

By order of the Commission.

Lisa R. Barton,
Acting Secretary to the Commission.

DEPARTMENT OF LABOR
Mine Safety and Health Administration

RIN 1219–AB73

Pattern of Violations

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice of OMB approval of information collection requirements.

SUMMARY: The Paperwork Reduction Act (PRA) requires this notice to set forth the effectiveness of information collection requirements contained in the final rule on Pattern of Violations.

DATES: The Office of Management and Budget (OMB) authorization for this information collection expires on February 29, 2016.

FOR FURTHER INFORMATION CONTACT: George F. Triebisch, Director, Office of Standards, Regulations, and Variances, MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209–3939, triebisch.george@dol.gov (email), 202–693–9440 (voice), or 202–693–9441 (facsimile).

SUPPLEMENTARY INFORMATION: On February 8, 2013, the Office of Management and Budget (OMB) approved, under Control Number 1219–0150, the Department of Labor’s information collection request under the PRA, for provisions associated with 30 CFR 104.2(a) for the final rule published in the Federal Register on January 23, 2013 (78 FR 5055). The final rule revised the Agency’s existing regulation for pattern of violations. The effective date of the final rule is March 25, 2013.

Under the PRA, an agency may not conduct an information collection unless it has a currently valid OMB approval. OMB had not provided a PRA-required approval for the revised information collection provisions associated with 30 CFR 104.2(a) at the time the final rule was published (44 U.S.C. 3507(a)(2)). Therefore, in accordance with the PRA, the effective date of the information collection provisions associated with the revised rule was delayed until OMB approved the collection (44 U.S.C. 3506(c)(1)(B)(i)(V)) on February 8, 2013. This OMB authorization expires on February 29, 2016.

George F. Triebisch,
Certifying Officer.
