SUPPLEMENTARY INFORMATION:

The NEJAC is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), Public Law 92-463. EPA established the NEJAC in 1993 to provide independent consensus advice to the EPA Administrator about a broad range of environmental issues related to environmental justice. The NEJAC conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations.

The Council consists of 26 members (including a Chairperson) appointed by EPA's Administrator. Members serve as non-federal stakeholders representing: four (4) from academia, three (3) from business and industry; six (6) from community based organizations; six (6) from non-governmental/environmental organizations; four (4) from state and local governments; and three (3) from tribal governments and indigenous organizations, of which one member serves as a liaison to the National Tribal Caucus. Members are appointed for three (3)-year terms with the possibility of reappointment to a second term.

The NEJAC usually meets face-to-face twice a year, generally in the Spring and the Fall. Additionally, members may be asked to participate in teleconference meetings or serve on Work Groups to develop recommendations, advice letters, and reports to address specific policy issues. The average workload for members is approximately 5 to 8 hours per month. EPA provides reimbursement for travel and other incidental expenses associated with official government business.

Nominations: Any interested person and/or organization may nominate qualified individuals for membership. The EPA values and welcomes diversity. In an effort to obtain nominations of diverse candidates, the agency encourages nominations of women and men of all racial and ethnic groups. All nominations will be fully considered, but applicants need to be aware of the specific representation sought as outlined in the Summary above. In addition, EPA is seeking nominees with knowledge in community sustainability, public health and health disparities, climate change adaptation, land use and equitable development, environmental sociology and social science, and environmental financing.

Other criteria used to evaluate nominees will include

- The background and experience that would help members contribute to the diversity of perspectives on the committee (e.g., geographic, economic, social, cultural, educational background, professional affiliations, and other considerations)
- Demonstrated experience with environmental justice and community sustainability issues at the national, state, or local level;
- Excellent interpersonal and consensus-building skills
- Ability to volunteer time to attend meetings 2-3 times a year, participate in teleconference meetings, attend listening sessions with the Administrator or other senior-level officials, develop policy recommendations to the Administrator, and prepare reports and advice letters
- Willingness to commit time to the committee and demonstrated ability to work constructively and effectively on committees

How to Submit Nominations: Any interested person or organization may nominate qualified persons to be considered for appointment to this advisory committee. Individuals are encouraged to self-nominate.
