Information Collection Request

Title: Great Lakes Pilotage.

OMB Control Number: 1625-0086.

Summary: The Office of Great Lakes Pilotage is seeking a revision of OMB's current approval for Great Lakes Pilotage data collection requirements for the three U.S. pilot associations it regulates. This revision would require continued submission of data to an electronic collection system. This system is identified as the Great Lakes Electronic Pilot Management System which will eventually replace the manual paper submissions currently used to collect data on bridge hours, vessel delay, vessel detention, vessel cancellation, vessel moorage, pilot travel, revenues, pilot availability, and related data. This revision ensures the required data is available in a timely manner and allows immediate accessibility to data crucial from both an operational and rate-making standpoint. Additionally, this collection adds inclusion of a registration form (CG-4509) required to be completed by all registered and applicant pilots.

Need: To comply with the statutory and regulatory requirements respecting the rate-making and oversight functions imposed upon the agency.

Forms: CG-4509.

Respondents: The three U.S. pilot associations regulated by the Office of Great Lakes Pilotage and members of the public applying to become Great Lakes Registered Pilots.

Frequency: Daily, Weekly, Monthly, Quarterly, Semi-annually, Annually, On Occasion; frequency dictated by marine traffic levels and association staffing.

Burden Estimate: The estimated burden increases to 19 hours a year with the addition of CG-4509 to this collection.

Dated: February 13, 2013.

R. E. Day,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.

Bureau of Ocean Energy Management

Environmental Documents Prepared for Oil, Gas, and Mineral Operations by the Gulf of Mexico Outer Continental Shelf (OCS) Region

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of the Availability of Environmental Documents Prepared for OCS Mineral Proposals by the Gulf of Mexico OCS Region.

SUMMARY: BOEM, in accordance with Federal regulations that implement the National Environmental Policy Act (NEPA), announces the availability of NEPA-related Site-Specific

Environmental Assessments (SEAs) and Findings of No Significant Impact (FONSI). These documents were prepared during the period October 1, 2012, through December 31, 2012, for oil, gas, and mineral-related activities that were proposed in the Gulf of Mexico, and are more specifically described in the Supplementary Information Section of this notice.

FOR FURTHER INFORMATION CONTACT: Bureau of Ocean Energy Management, Gulf of Mexico OCS Region, Attention: Public Information Office (GM 250E), 1201 Elmwood Park Boulevard, Room 250, New Orleans, Louisiana 70123-2394, or by calling 1-800-200-GULF.

SUPPLEMENTARY INFORMATION: BOEM prepares SEAs and FONSI for certain proposals that relate to exploration, development, production, and transport of oil, gas, and mineral resources on the Federal OCS. These SEAs examine the potential environmental effects of proposed activities and present BOEM conclusions regarding the significance of those effects. The SEAs are used as a basis for determining whether or not approval of the proposals constitutes a major Federal action that significantly affects the quality of the human environment in accordance with NEPA Section 102(2)(C). A FONSI is prepared in those instances where BOEM finds that approval will not result in significant effects on the quality of the human environment. The FONSI briefly presents the basis for that finding and includes a summary or copy of the SEA.

This notice constitutes the public notice of availability of environmental documents required under the NEPA Regulations.
