Respondents/affected entities: Home builders, modular and manufactured home manufacturing plants, developers, verification organizations, oversight organizations, lenders, energy efficiency program sponsors (e.g., national, regional, state, or local government entities, utilities), architects, home plan designers, retailers, contractors, and homeowners.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 132,000 (total).

Frequency of response: Once, quarterly, annually, and occasionally.

Total estimated burden: 183,967 hours (per year). Burden is defined at 5 CFR 1320.3(b)

Total estimated cost: \$13,553,809 (per year). This includes an estimated cost of \$13,553,209 for labor and \$600 for capital investment, operation and maintenance.

Changes in the Estimates: There is an increase of 3,009 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This includes a 112,566-hour increase due to program changes and a 109,557-hour decrease due to adjustments. The 112,566-hour increase due to program changes resulted primarily from EPA's new, more rigorous guidelines for new homes looking to earn the ENERGY STAR. The 109,557-hour decrease due to adjustments resulted primarily from

updated and improved data and analysis.
