

The Foundation develops, supports, and/or operates programs and projects to educate and train educational and environmental professionals, and to assist them in the development and delivery of environmental education and training programs and studies.

The Foundation has a governing Board of Directors (hereafter referred to in this section as 'the Board'), which consists of 13 directors, each of whom shall be knowledgeable or experienced in the environment, education and/or training. The Board oversees the activities of the Foundation and assures that the activities of the Foundation are consistent with the environmental and education goals and policies of the Environmental Protection Agency and with the intents and purposes of the Act. The membership of the Board, to the extent practicable, represents diverse points of view relating to environmental education and training. Members of the Board are appointed by the Administrator of the Environmental Protection Agency.

Within 90 days of the date of the enactment of the National Environmental Education Act, and as appropriate thereafter, the Administrator will publish in the **Federal Register** an announcement of appointments of Directors of the Board. Such appointments become final and effective 90 days after publication in the **Federal Register**. The directors are appointed for terms of 4 years. The Administrator shall appoint an individual to serve as a director in the event of a vacancy on the Board within 60 days of said vacancy in the manner in which the original appointment was made. No individual may serve more than 2 consecutive terms as a director.

Dated: February 14, 2013.

Lisa P. Jackson,
Administrator.

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Luminant Generation Company—Sandow 5 Generating Plant

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to Clean Air Act (CAA or Act) operating permit.

SUMMARY: This document announces that the EPA Administrator has responded to a citizen petition asking EPA to object to an operating permit (Permit Number O3025) issued by the Texas Commission on Environmental Quality (TCEQ). Specifically, the Administrator has denied the October 5, 2011 petition, submitted by the Environmental Integrity Project (EIP), Sierra Club, Public Citizen, Texas Campaign for the Environment, Environment Texas, and the SEED Coalition (Petitioners), to object to the operating permit issued on August 18, 2011, to Luminant Generation Company, for the operation of the Sandow 5 Generating Plant located near Rockdale, Milam County, Texas. Sections 307(b) and 505(b)(2) of the Act provide that a petitioner may ask for judicial review of those portions of the petition which EPA denies in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final Order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733.

EPA requests that if at all possible, you contact the individual listed in the

FOR FURTHER INFORMATION CONTACT section to view copies of the final Order, petition, and other supporting information. You may view the hard copies Monday through Friday, from 9:00 a.m. to 3:00 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order for Luminant Generation Company, for the operation of the Sandow 5 Generating Plant is available electronically at: http://www.epa.gov/region07/air/title5/petitiondb/petitions/sandow_response2011.pdf.

FOR FURTHER INFORMATION CONTACT: Dinesh Senghani at (214) 665-7221, email address: senghani.dinesh@epa.gov or the above EPA, Region 6 address.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review, and object to as appropriate, a title V operating permit proposed by State permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a title V operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issue arose after this period.

EPA received a petition from the Petitioners dated October 4, 2011, requesting that EPA object to the issuance of the title V operating permit to Luminant Generation Company—Sandow 5 Generating Plant located near Rockdale, Milam County, Texas based on the following contentions: (1) The Sandow 5 title V permit impermissibly incorporates by reference emission limitations established in a major New Source Review permit, (2) the Sandow 5 title V permit impermissibly incorporates by reference the EPA-disapproved Pollution Control Project Standard Permit, (3) the permit impermissibly incorporates permit by rules (this claim is divided into 7 sub-claims), and (4) the permit lacks a Maximum Achievable Control Technology determination as required by CAA section 112(g).

On January 15, 2013, the Administrator issued an Order denying the petition. The Order explains the reasons behind EPA's conclusion to deny the petition.

Dated: February 12, 2013.

FEDERAL COMMUNICATIONS COMMISSION

Information Collections Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before April 29, 2013. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to the Federal Communications Commission via email to PRA@fcc.gov and Cathy.Williams@fcc.gov.
