Identifies industry smart practices and lessons learned; and

Maintains a dynamic modal network through effective communications with the pipeline industry and government stakeholders. Under the Aviation and Transportation Security Act (ATSA) and delegated authority from the Secretary of Homeland Security, TSA has broad responsibility and authority for “security in all modes of transportation including security responsibilities over modes of transportation that are exercised by the Department of Transportation.” TSA is specifically empowered to develop policies, strategies, and plans for dealing with threats to transportation, oversee the implementation and adequacy of security measures at transportation facilities, and carry out other appropriate duties relating to transportation security.

Purpose and Description of Data Collection

The purpose of the PCSR program is to develop first-hand knowledge of a pipeline operator’s corporate security policies and procedures, establish and maintain working relationships with key pipeline security personnel, and identify and share smart security practices observed at individual facilities to help enhance and improve the security of the pipeline industry.

To this end, the PCSR Program provides TSA with a method to discuss security-related matters with pipeline operators. The PCSR encompasses site visits and interviews and is one piece of a much larger domain awareness, prevention, and protection program in support of TSA’s and the Department of Homeland Security’s (DHS) missions.

In carrying out PCSRs, subject matter experts from TSA’s Pipeline Security Branch visit pipeline operators throughout the nation that elected to adopt security plans. These are voluntary face-to-face visits, usually at the headquarters facility of the pipeline owners/operator. Typically, TSA sends one to three employees to conduct a three-to-four hour interview with representatives from the owner/operator. The TSA representatives analyze the owner’s/operator’s security plan and determine if the mitigation measures included in the plan are being properly implemented. TSA then visits one or two of the owners/operators assets to further assess the implementation of the owner’s/operator’s security plan.

TSA conducts this collection of information on security measures to identify security gaps. The discussions also provide TSA with a method to encourage the pipeline owners/operators to be diligent in implementing and maintaining security-related improvements.

TSA has developed a question set to aid in the conducting of PCSRs. The PCSR Question Set drives the TSA-operator discussion and is the central data source for all security information collected. The PCSR Question Set was developed based on government and industry guidance to obtain information from a pipeline operator about its security plan and processes. The questions are designed to examine the company’s current state of security as well as to address measures that are applied if there is a change in the National Terrorism Advisory System.

In application, topics such as security program management, vulnerability assessments, components of the security plan, security training, and emergency communications enable the PCSR Teams to assess the operator’s security plan by evaluating a broad range of security issues such as physical security, cyber security, communication, and training. The PCSR Question Set also includes sections for facility site visits and operator contact information. The questions and subsequent answers help provide TSA with a snapshot of a company’s security posture and is instrumental in developing smart practices and security measures.

Use of Results

This PCSR collection provides TSA with real-time information on current security practices within the pipeline mode of the surface transportation sector. This information allows TSA to adapt programs to the changing security threat, while incorporating an understanding of improvements owners/operators make in their security measures. Without this information, the ability of TSA to perform its security mission would be severely hindered.

Additionally, the relationships these face-to-face contacts foster are critical to the Federal government’s ability to reach out to the pipeline stakeholders affected by the PCSRs. TSA assures respondents that the portion of their responses that is deemed Sensitive Security Information (SSI) will be protected in accordance with procedures meeting the transmission, handling, and storage requirements of SSI set forth in 49 CFR parts 15 and 1202.

The annual hour burden for this information collection is estimated to be 120 hours. While TSA estimates there to be a total universe of 2200 potential respondents, the estimate is based on TSA conducting 15 PCSR visits per year, each visit lasting a total of 8 hours. There is no cost burden to respondents.

Issued in Arlington, Virginia, on February 20, 2013.

Susan L. Perkins,

TSA Paperwork Reduction Act Officer, Office of Information Technology.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Notice of Submission of Proposed Information Collection to OMB; Border Community Capital Initiative

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

The purpose of this submission is for the application for the Border Community Capital Initiative grant process. Information is required to rate and rank competitive applications and to ensure eligibility of applicants for funding. Semi-annual reporting is required to monitor grant management.

DATES: Comments Due Date: March 28, 2013.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB approval Number (2506–New) and should be sent to: HUD Desk Officer,

FOR FURTHER INFORMATION CONTACT: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410; email: Colette Pollard at Colette.Pollard@hud.gov or telephone (202) 402–3400. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that the Department of Housing and Urban Development has submitted to OMB a request for approval of the Information collection described below. This notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This notice also lists the following information

Title of Proposal: Border Community Capital Initiative.
OMB Approval Number: 2506–New.

Description of the need for the information and proposed use: The purpose of this submission is for the application for the Border community Capital Initiative grant process. Information is required to rate and rank competitive applications and to ensure eligibility of applicants for funding. Semi-annual reporting is required to monitor grant management.

**SUPPLEMENTARY INFORMATION:** The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended). Division B of the Department of Defense Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico and Pandemic Influenza Act, 2006 (Section 901 of Public Law No. 109–148, enacted on December 30, 2005), among other provisions, makes emergency supplemental appropriations to address the hurricane devastation in the Gulf of Mexico. Section 901 of this appropriations act authorized PHAs in federally declared disaster areas as a result of Hurricanes Katrina and Rita to combine their Capital Funds (section 9(d) of the United States Housing Act of 1937 (42 U.S.C. 1437 et seq.) (1937 Act)), Operating Funds (section 9(e) of the 1937 Act), and Housing Choice Voucher Funds (section 8(o) of the 1937 Act) to assist families who were displaced by Hurricane Katrina or Rita. HUD determined that this provision permitted PHAs to use these funds interchangeably. In practice, most PHAs used Housing Choice Voucher (HCV) funds for the public housing Capital Fund Program (CFP) purposes, and had up to five years to expend the HCV funds for those uses.

HUD implemented Section 901 through publication in the Federal Register on July 28, 2006, of FR–5067–N–01 (Volume 71, Page 42906) entitled Implementation Guidance for Section...
