

other Federal and state land management agencies.

Procedural Requirements: The REAs provide science-based information and tools for land managers and stakeholders to consider in resource planning and decision-making processes, such as Resource Management Plans and Environmental Impact Statements. Consequently, the REAs do not contain findings and recommendations, nor do they make management decisions or allocate resource uses. The issuance of REAs by the BLM does not constitute a rulemaking.

Edwin Roberson,

Assistant Director, Bureau of Land Management.
