

other Federal and state land management agencies.

Procedural Requirements: The REAs provide science-based information and tools for land managers and stakeholders to consider in resource planning and decision-making processes, such as Resource Management Plans and Environmental Impact Statements. Consequently, the REAs do not contain findings and recommendations, nor do they make management decisions or allocate resource uses. The issuance of REAs by the BLM does not constitute a rulemaking.

Follow the instructions to review Department of the Interior collections under review by OMB.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1024-0125.

Title: Submission of Offers in Response to Concession Opportunities, 36 CFR 51.

Service Form Number: None.

Type of Request: Extension of a currently approved collection.

Description of Respondents: Businesses, individuals, and nonprofit organizations.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Activity	Number of respondents	Number of responses	Completion time per response (hours)	Total annual burden hours
Large Concessions	30	30	240	7,200
Small Concessions	60	60	80	4,800
Totals	90	90	12,000

Estimated Annual Nonhour Burden Cost: \$420,000. We estimate that the average nonhour cost per respondent is \$3,000 for small operations and \$8,000 for large operations.

Abstract: The regulations at 36 CFR Part 51 primarily implement Title IV of the National Parks Omnibus Management Act of 1998 (Pub. L. 105-391), which provides legislative authority, policies, and requirements for the solicitation, award, and administration of NPS concession contracts. The regulations require the submission of offers by parties interested in applying for an NPS concession contract.

The public solicitation process begins with the issuance of a prospectus to invite the general public to submit proposals for the contract. The prospectus describes the terms and conditions of the concession contract to be awarded, the procedures to be followed in the selection of the best proposal, and the information that must

be provided. Information that we collect includes, but is not limited to:

- Description of how respondent will conduct operations to minimize disturbance to wildlife.
- Specific actions, steps, or programs that respondent will implement to protect park resources.
- Steps that respondent will take to provide visitors with a consistent, high quality, safe, and enjoyable visitor experience at a reasonable rate.
- Organizational structure and history.
- Experience with similar operations.
- Details on violations or infractions and how they were handled.
- Financial information and demonstration that respondent has credible, proven track record of meeting obligations.
- Ability to obtain funds for start-up costs.
- How respondent will communicate an environmental ethic to employees and visitors.

We use this information to objectively evaluate offers received for a particular business opportunity, assure that the park resources will be adequately protected, and determine which respondent will provide the best service to visitors.

Comments: On July 24, 2012, we published in the **Federal Register** (77 FR 43354) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on September 24, 2012. We did not receive any comments.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
