NATIONAL SCIENCE FOUNDATION

Advisory Committee for International Science and Engineering; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for International Science and Engineering (25104).

Date/Time:

March 14, 2013 9:30 a.m.–5:00 p.m.
March 15, 2013 8:30 a.m.–12:30 p.m.

Place: National Science Foundation, Stafford II, Room 1155, Arlington, VA 22230. If you are attending the meeting and need access to the NSF, please contact the individual listed below so your name may be added to the building access list.

Type of Meeting: Open.

Contact Person: Robert Webber, Office of International Science and Engineering, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230 Telephone: 703/292-8569

Purpose of Meeting: To provide advice and recommendation concerning support for the research, education, and related activities involving the U.S. science and engineering community working in a global context, as well as strategic efforts to promote a more effective NSF role in international science and engineering.

Agenda:

International Activities across NSF and Beyond.

Disciplinary International Activities. Meetings with NSF Senior Management.

Dated: February 22, 2013.

Susanne Bolton,

Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[NRC-2013-0040; Docket Nos. 50-334 and 50-412; License Nos. DPR-66 and NPF-73; EA-12-254]

In the Matter of FirstEnergy Nuclear Operating Co. (Beaver Valley Units 1 and 2); Confirmatory Order Modifying License

I

FirstEnergy Nuclear Operating Company (FENOC, the licensee) is the

holder of Renewed Facility Operating License Nos. DPR-66 and NPF-73 issued by the U.S. Nuclear Regulatory Commission (NRC) pursuant to part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," on November 5, 2009. The licenses authorize the operation of the Beaver Valley Power Station, Units 1 and 2 (Beaver Valley, facility), in accordance with conditions specified therein. The facility is located on the licensee's site in Shippingport, Pennsylvania.

II

On December 22, 2005, FENOC notified the NRC of its intent to transition the facility to the National Fire Protection Association (NFPA) Standard 805 fire protection program in accordance with 10 CFR 50.48(c). Under this initiative, the NRC has exercised enforcement discretion for most fire protection noncompliances that are identified during the licensee's transition to NFPA 805, and for certain existing identified noncompliances that reasonably may be resolved at the completion of transition. NFPA 805 was adopted in 10 CFR 50.48(c) as an alternative fire protection rule, which is one path to resolving longstanding fire protection issues. To receive enforcement discretion for these noncompliances, the licensee must meet the specific criteria, as stated in Section 9.1, "Enforcement Discretion for Certain Fire Protection Issues (10 CFR 50.48)," of the "NRC Enforcement Policy," dated June 7, 2012, and submit an acceptable license amendment application by the date, as specified in the licensee's commitment letter. In a letter dated June 29, 2011, FENOC committed to submit their license amendment application by September 30, 2012.

III

In a public meeting held on August 1, 2012, between the NRC and FENOC, the licensee described its progress for transitioning Beaver Valley to NFPA 805. FENOC also notified the NRC that the development of a high-quality application will require more time than originally anticipated and that they will be unable to meet their previously committed submittal date of September 30, 2012. FENOC expressed a desire to continue enforcement discretion, and a willingness to commit to the new submittal date.

In a letter dated August 29, 2012, FENOC reiterated the current transition strategy for Beaver Valley, and notified the NRC that FENOC will submit its license amendment request (LAR) no
