

TABLE C—WILLIAM D. FORD FEDERAL DIRECT LOAN (DIRECT LOAN) PROGRAM AND TEACHER EDUCATION ASSISTANCE FOR COLLEGE AND HIGHER EDUCATION (TEACH) GRANT PROGRAM SUBMISSION DATES FOR DISBURSEMENT INFORMATION BY INSTITUTIONS FOR THE 2012–2013 COD PROCESSING YEAR ¹—Continued

Who submits?	What is submitted?	Where is it submitted?	What are the earliest submission and deadline dates for receipt?
			<p>For disbursements that occur prior to April 1, 2013 an institution is required to submit disbursement information no later than 30 calendar days after the institution makes a disbursement or becomes aware of the need to make an adjustment to previously reported disbursement data; or For disbursements that occur on or after April 1, 2013 an institution is required to submit disbursement information no later than 15 calendar days after the institution makes a disbursement or becomes aware of the need to make an adjustment to previously reported disbursement data.</p> <p>Note: Disbursements made between January 1, 2012 and March 10, 2012 must be reported not later than 30 calendar days after March 10, 2012.</p>

¹ A COD Processing Year is a period of time in which institutions are permitted to submit Direct Loan and TEACH Grant records to the COD System that are related to a given award year. For a Direct Loan, the period of time includes loans that have a loan period covering any day in the 2012–2013 award year. For a TEACH Grant, the period of time includes an award for a payment period that includes any day in the 2012–2013 award year.

² Transmissions must be completed and accepted before 12:00 (Eastern Time) midnight to meet the deadline. If transmissions are started before 12:00 midnight but are not completed until after 12:00 midnight, those transmissions will not meet the deadline. In addition, any transmission submitted on or just prior to the deadline date that is rejected may not be reprocessed because the deadline will have passed by the time the user gets the information notifying him or her of the rejection.

Note: The COD System must accept origination data for a student from an institution before it accepts disbursement information from the institution for that student. Institutions may submit origination and disbursement data for a student in the same transmission. However, if the origination data is rejected, the disbursement data is rejected.

DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collection Extension

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Notice and Request for Office of Management and Budget (OMB) Review and Comment.

SUMMARY: EIA has submitted, under the provisions of the Paperwork Reduction Act of 1995, an information collection request to the OMB for a three-year extension, with changes, of its Oil and Gas Reserves System Surveys (OGRS) forms (OMB 1905–0057):

- Form EIA–23L, *Annual Survey of Domestic Oil and Gas Reserves, Field Level Report*

- Form EIA–23S, *Annual Survey of Domestic Oil and Gas Reserves, Summary Level Report*

- Form EIA–64A, *Annual Report of the Origin of Natural Gas Liquids Production*

EIA proposes to suspend the Form EIA–23S and collect similar data in a revised sample for the Form EIA–23L data collection. The sampling method for the Form EIA–23L survey frame will be changed to a cut-off sample, and procedures to estimate data will be adjusted, accordingly. EIA proposes to report reserves for three, small natural gas and oil production states (IL, IN, and TN) “as reported” (i.e., will no longer estimate the total reserves for these states) under the Miscellaneous States category in EIA publications. The Form EIA–23L instructions will be updated with the current EIA definitions of terms used. Form EIA–64A will be extended without changes.

DATES: Comments regarding this collection must be received on or before April 1, 2013. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202–395–4718 or contacted by email at chad_s_whiteman@omb.eop.gov.

ADDRESSES: Written comments should be sent to the: DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503; and to Steven Grape, EI–24, U.S. Energy Information Administration, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection

instrument and instructions should be directed to Steven Grape, EI-24, U.S. Energy Information Administration, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585, fax: (202) 586-4420, email: steven.grape@eia.gov. The collection instrument and instructions are also available on the Internet, at: http://www.eia.gov/survey/form/eia_23l/proposed/instructions.pdf http://www.eia.gov/survey/form/eia_23l/proposed/form.pdf http://www.eia.gov/survey/form/eia_64a/proposed/instructions.pdf http://www.eia.gov/survey/form/eia_64a/proposed/form.pdf.

SUPPLEMENTARY INFORMATION: This information collection request contains:

- (1) OMB No.: 1905-0057;
- (2) *Information Collection Request Title:* Oil and Gas Reserves System;
- (3) *Type of Request:* Three-year extension with changes;
- (4) *Purpose:* EIA has a congressional mandate to provide accurate annual estimates of U.S. proved crude oil, natural gas, and natural gas liquids reserves. EIA presents annual reserves data in EIA Web reports to meet this requirement. This collected data and EIA's nationwide estimates are essential to the development, implementation, and evaluation of energy policy and legislation. Data are used directly in EIA web reports concerning U.S. crude oil, natural gas, and natural gas liquids reserves, and are incorporated into other reports, including EIA's *Annual Energy Review*, *Annual Energy Outlook*, *Short-Term Energy Outlook*, *Petroleum Supply Annual*, and *Natural Gas Annual*.

EIA proposes to suspend the Form EIA-23S, consolidate some of its respondents into the Form EIA-23L, and change the Form EIA-23L sampling and estimation to streamline administrative processes and to improve data quality. The Form EIA-23L sampling method will change from a probability proportional to size (PPS) method to a cut-off sample that excludes the smallest respondents, who may lack the resources to effectively report all requested data, thus reducing the potential for non-sampling error. Procedures to estimate data published at regional summary levels will be adjusted to reflect the new sampling method. The Form EIA-23L questions will not change. The Form EIA-23L instructions will be updated with the current EIA definitions of terms used. The Form EIA-64A is proposed to be extended without changes.

(5) *Annual Estimated Number of Respondents:* 1,450;

(6) *Annual Estimated Number of Total Responses:* 1,450;

(7) *Annual Estimated Number of Burden Hours:* 43,650 hours;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$0; EIA estimates that there are no additional costs to respondents associated with the surveys other than the costs associated with the burden hours.

Statutory Authority: Section 13(b) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, codified at 15 U.S.C. 772(b) and Section 657 of the Department of Energy Organization Act, Pub. L. 95-91.

Issued in Washington, DC, on February 22, 2013.
