RIN 0648-XC499

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2013 commercial summer flounder quota to the Commonwealth of Virginia and to the State of Rhode Island. NMFS is adjusting the quotas and announcing the revised commercial quota for each state involved.

DATES: Effective February 28, 2013, through December 31, 2013.

FOR FURTHER INFORMATION CONTACT: Carly Bari, Fishery Management Specialist, 978-281-9224.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are in 50 CFR part 648, and require annual specification of a commercial quota that is apportioned among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state are described in § 648.100.

The final rule implementing Amendment 5 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan, which was published on December 17, 1993 (58 FR 65936), provided a mechanism for summer flounder quota to be transferred from one state to another. Two or more states, under mutual agreement and with the concurrence of the Administrator, Northeast Region, NMFS (Regional Administrator), can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i) to evaluate requests for quota transfers or combinations.

North Carolina has agreed to transfer 1,410,230 lb (639,670 kg) of its 2013 commercial quota to Virginia. This transfer was prompted by summer flounder landings of a number of North Carolina vessels that were granted safe harbor in Virginia due to hazardous shoaling, from January 1, 2013, to January 31, 2013, thereby requiring a quota transfer to account for an increase in Virginia's landings that would have otherwise accrued against the North Carolina quota. North Carolina has also agreed to transfer 36,784 lb (16,685 kg) of its 2013 commercial quota to Rhode Island. This transfer was prompted by summer flounder landings of three North Carolina vessels that were granted safe harbor in Rhode Island on January 31, 2013, and February 8, 2013, thereby requiring a quota transfer to account for an increase in Rhode Island's landings that would have otherwise accrued against the North Carolina quota. The Regional Administrator has determined that the criteria set forth in § 648.102(c)(2)(i) have been met. The

revised summer flounder quotas for calendar year 2013 are: North Carolina, 1,692,732 lb (767,810 kg); Virginia, 3,848,822 lb (1,745,796 kg); and Rhode Island, 1,830,884 lb (830,475 kg).
