SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration's Office of Energy and Environmental Industries (OEEI) is the principal resource and key contact point within the U.S. Department of Commerce for American energy and environmental technology companies. The goal of OEEI is to facilitate and increase exports of energy and environmental goods and services by providing support and guidance to U.S. exporters. One aspect of increasing exports is to reduce trade barriers and non-tariff measures. OEEI works closely with the Office of the U.S. Trade Representative on trade negotiations and trade liberalization initiatives. The information collected by this survey is used to support these projects and enable OEEI to maintain a current, up-to-date list of non-tariff measures that create trade barriers for U.S. exports of environmental goods and services.

II. Method of Collection

Electronic submission via <http://www.export.gov/envirotech>.

Fresh Tomatoes From Mexico: Termination of Suspension Agreement, Termination of Five-Year Sunset Review, and Resumption of Antidumping Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* March 1, 2013.

SUMMARY: On February 28, 2013, Mexican tomato growers/exporters accounting for a significant percentage of all fresh tomatoes imported into the United States from Mexico provided written notice to the Department of Commerce of their withdrawal from the agreement suspending the antidumping investigation on fresh tomatoes from Mexico. Because the suspension agreement no longer covers substantially all imports of fresh tomatoes from Mexico, the Department of Commerce is terminating the suspension agreement, terminating the sunset review of the suspended investigation, and resuming the antidumping investigation.

FOR FURTHER INFORMATION CONTACT: Judith Wey Rudman or Julie Santoboni at (202) 482-0192 or (202) 482-3063, respectively; Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On February 2, 2013, the Department of Commerce (the Department) and Mexican tomato growers/exporters accounting for a significant percentage of all fresh tomatoes imported into the United States from Mexico initialed a proposed agreement that would suspend a resumed antidumping investigation on fresh tomatoes from Mexico. Based on this proposed agreement, and the anticipation that the Mexican tomato growers/exporters would withdraw from the 2008 Agreement in order to enter into a new agreement if an acceptable agreement was reached, the Department published a notice of intent to terminate the suspension agreement and resume the antidumping investigation, and intent to terminate the sunset review on February 8, 2013. (See, *Fresh Tomatoes from Mexico: Intent to Terminate Suspension Agreement and Resume Antidumping Investigation and Intent to Terminate Sunset Review*, 78 FR 9366 (February 8, 2013).

On February 28, 2013, Mexican tomato growers/exporters accounting for a significant percentage of all fresh tomatoes imported into the United States from Mexico provided written notice to the Department of their withdrawal from the 2008 Suspension Agreement, effective 90 days from the date of their withdrawal letter (*i.e.*, May 29, 2013), or earlier, at the Department's discretion. The Department is accepting the Mexican tomato growers/exporters withdrawal from the 2008 Suspension Agreement, effective March 1, 2013. Because the suspension agreement no longer covers substantially all imports of fresh tomatoes from Mexico, the Department of Commerce is terminating the suspension agreement, terminating the sunset review of the suspended investigation, and resuming the antidumping investigation.

Scope of the Investigation

The merchandise subject to this investigation is all fresh or chilled tomatoes (fresh tomatoes) which have Mexico as their origin, except for those tomatoes which are for processing. For purposes of this investigation, processing is defined to include preserving by any commercial process, such as canning, dehydrating, drying, or the addition of chemical substances, or converting the tomato product into juices, sauces, or purees. Fresh tomatoes that are imported for cutting up, not further processing (*e.g.*, tomatoes used in the preparation of fresh salsa or salad bars), are covered by this Agreement.

Commercially grown tomatoes, both for the fresh market and for processing,
