## DEPARTMENT OF EDUCATION

### Extension of Deadline; Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP)—College Savings Account Research Demonstration Project

**AGENCY:** Office of Postsecondary Education, Department of Education.

**ACTION:** Notice extending deadline date for the FY 2013 grant competition.

Catalog of Federal Domestic Assistance (CFDA) Number: 84.334D.

**SUMMARY:** On January 23, 2013, we published in the **Federal Register** (78 FR 4838) a notice inviting applications for the GEAR UP College Savings Account Research Demonstration Project. The notice established March 11, 2013, as the deadline date for eligible applicants to apply for funding under the program. To allow applicants additional time to respond to program requirements regarding college savings accounts and financial counseling, we are extending the deadline date for transmittal of applications to May 1, 2013.

**DATES:** *Deadline for Transmittal of Applications:* May 1, 2013.

**FOR FURTHER INFORMATION CONTACT:** Catherine St. Clair, Student Service, Office of Postsecondary Education, U.S. Department of Education, 1990 K Street NW., Room 7051, Washington, DC 20006-8524. Telephone: (202) 502-7579 or by email: [catherine.stclair@ed.gov](mailto:catherine.stclair@ed.gov).

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1-800-877-8339.

**Accessible Format:** Individuals with disabilities can obtain this document in an accessible format (e.g., braille, large print, audiotope, or compact disc) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

**Electronic Access to This Document:** The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: [www.gpo.gov/fdsys](http://www.gpo.gov/fdsys). At this site you can view this document, as well as all

other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF, you must have Adobe Acrobat Reader, which is available free at this site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: [www.federalregister.gov](http://www.federalregister.gov). Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

**Program Authority:** 20 U.S.C. 1070a-21 through 20 U.S.C. 1070a-28.

Dated: March 5, 2013.

**David A. Bergeron,**

*Acting Assistant Secretary for Postsecondary Education.*

## DEPARTMENT OF ENERGY

### Consideration of Withdrawal From Commercial Production and Distribution of the Radioisotope Germanium-68

**AGENCY:** Office of Science, Department of Energy.

**ACTION:** Notice of Inquiry and Request for Comment.

**SUMMARY:** The Department of Energy (DOE) currently produces and distributes the radioisotope germanium-68. DOE is seeking comment and information from the public to assist in its consideration of DOE withdrawal from the commercial production and distribution of germanium-68, based upon private industry expression of interest in and capability to engage in commercial production of germanium-68.

**DATES:** Interested persons must submit written comments by April 30, 2013.

**ADDRESSES:** Comments may be submitted electronically by emailing to: [Marc.Garland@science.doe.gov](mailto:Marc.Garland@science.doe.gov). Written comments may be addressed to: Dr. Marc Garland, Program Manager, Office of Nuclear Physics, Office of Science, U.S. Department of Energy, Germantown Building, SC-26.2, 1000 Independence Ave. SW., Washington, DC 20585-1290. We note that email submissions will avoid delay associated with security screening of U.S. Postal Service mail.

**FOR FURTHER INFORMATION CONTACT:** Dr. Jehanne Gillo, Director, Facilities and Project Management Division, Office of Nuclear Physics, Office of Science, U.S. Department of Energy, Germantown

Building, SC-26.2, 1000 Independence Ave. SW., Washington, DC 20585-1290, Tel: 301-903-1455.

**SUPPLEMENTARY INFORMATION:** It is DOE policy to refrain from competition with private industry in the commercial production and distribution of radioisotopes when those radioisotopes are reasonably available commercially. This policy was announced, and remains in effect, as stated in the Notice published in the **Federal Register** in 1965, entitled Policies and Procedures for Transfer of Commercial Radioisotope Production and Distribution to Private Industry ("Statement of Policy"), 30 FR 3247 (March 9, 1965).

The Department has been made aware of private industry development of commercial production and distribution of the radioisotope germanium-68. In light of these circumstances, DOE intends to evaluate the capability of private industry to satisfy the market demand for germanium-68, consistent with the guidelines provided in the Statement of Policy, referenced above. In summary, DOE's evaluation will include consideration of: a demonstrable private capability to produce and distribute germanium-68; effective competition in the market for the production and distribution of germanium-68; assurance that private industry will not discontinue production or distribution of germanium-68 in a manner that would adversely impact the public interest; and the germanium-68 will be available at reasonable prices consistent with its intended uses and the prices to be charged will also encourage further research and development. Comments and information from the public received in response to this Notice will be considered in this evaluation.

If the determination is made that germanium-68 is reasonably available from commercial sources and it is appropriate for DOE to withdraw from commercial production and distribution of this radioisotope, DOE will publish in the **Federal Register** a notice of its intent to withdraw from the market, providing the public with information regarding the basis and timing of withdrawal. Should DOE decide to withdraw from the commercial production and distribution of germanium-68, all existing contracts will be honored.
