

Arizona, Colorado, New Mexico, South Dakota, Utah, Wyoming, and California for the purpose of enhancing the species' survival.

Permit Application Number: TE-219757

Applicant: Mike Phillips, Turner Endangered Species Fund, 1123 Research Dr., Bozeman, Montana 59718.

The applicant requests renewal of an existing permit and an amendment to take black-footed ferret (*Mustela nigripes*) in conjunction with recovery activities throughout the species' range for the purpose of enhancing its survival and recovery.

Permit Application Number: TE-98300A

Applicant: George Boxall, Amnis Opes Institute, LLC, 4755 Elk Run Dr., Albany, Oregon, 97321.

The applicant requests a permit to take (capture, handle, release) pallid sturgeon (*Scaphirhynchus albus*), white sturgeon (*Acipenser transmontanus*), bonytail chub (*Gila elegans*), Colorado pikeminnow (*Ptychocheilus Lucius*), humpback chub (*Gila cypha*), and razorback sucker (*Xyrauchen texanus*) in conjunction with surveys and population monitoring activities in Montana and Colorado for the purpose of enhancing the species' survival.

Permit Application Number: TE-057401

Applicant: BLM Grand Staircase Escalante National Monument, 669 S. Highway 89A, Kanab, Utah 84741.

The applicant requests renewal of a permit to take Southwestern willow flycatcher (*Empidonax traillii extimus*) in conjunction with recovery activities throughout the species' range for the purpose of enhancing survival and recovery of the species.

National Environmental Policy Act

In compliance with the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), we have made an initial determination that the proposed activities in these permits are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement (516 DM 6 Appendix 1, 1.4C(1)).

Public Availability of Comments

All comments and materials we receive in response to this request will be available for public inspection, by appointment, during normal business hours at the address listed in the **ADDRESSES** section of this notice.

Before including your address, phone number, email address, or other personal identifying information in your

comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*)

Dated: March 5, 2013.

Michael G. Thabault,

Assistant Regional Director, Mountain-Prairie Region.

Incidental Take Permit Amendment and Supplemental Environmental Assessment for Wind Energy Development, Guayanilla, Puerto Rico

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Under the Endangered Species Act (Act), we, the U.S. Fish and Wildlife Service, announce the receipt and availability of a revised habitat conservation plan (revised HCP) and accompanying documents for wind energy development by San Francisco Wind Farm LLC (formerly WindMar R.E.) (Permittee). The revised HCP analyzes take of Puerto Rican crested toad (*Peltophryne lemur*) incidental to the previously authorized wind energy development activities in Guayanilla, Puerto Rico, so that this listed species might be added to those already covered by the existing incidental take permit (ITP). We invite public comments on these documents.

DATES: We must receive any written comments at our Regional Office (see **ADDRESSES**) on or before April 11, 2013.

ADDRESSES: Documents are available for public inspection by appointment during normal business hours at the Fish and Wildlife Service's Regional Office, 1875 Century Boulevard, Suite 200, Atlanta, GA 30345; or at the Caribbean Ecological Services Field Office, Fish and Wildlife Service, Road 301, Km. 5.1, Boquerón, PR 00622.

FOR FURTHER INFORMATION CONTACT: Mr. David Dell, Regional HCP Coordinator (see **ADDRESSES**), telephone: 404-679-7313; or Mr. José Cruz-Burgos,

Endangered Species Coordinator, at the Caribbean Field Office (see **ADDRESSES**), telephone: 787-851-7297 extension 218.

SUPPLEMENTARY INFORMATION: We announce the availability of the revised HCP and supplemental environmental assessment (Supplemental EA), which analyzes the take of the threatened Puerto Rican crested toad. The Service previously advertised (71 FR 951), and issued in September 2006, TE104073 as a 40-year ITP authorizing incidental take of Puerto Rican nightjar (*Caprimulgus noctitherus*), brown pelican (*Pelecanus occidentalis occidentalis*), and roseate tern (*Sterna dougallii dougallii*).

The Permittee requests an amendment for the remaining term of the ITP under section 10(a)(1)(B) of the Act (16 U.S.C. 1531 *et seq.*), as amended. The Permittee's revised HCP describes the mitigation and minimization measures proposed to address the impacts to the Puerto Rican crested toad within the Punta Ventana section of the covered area.

We specifically request information, views, and opinions from the public via this notice on our proposed Federal action, including identification of any other aspects of the human environment not already identified in the supplemental EA pursuant to National Environmental Policy Act (NEPA) regulations in the Code of Federal Regulations (CFR) at 40 CFR 1506.6. Further, we specifically solicit information regarding the adequacy of the revised HCP per 50 CFR parts 13 and 17.

The supplemental EA assesses the likely environmental impacts associated with the implementation of the activities and proposed amendments, including the environmental consequences of the no-action alternative and the proposed action. The proposed action alternative is amendment of the ITP and implementation of the revised HCP as submitted by the Permittee. The revised HCP evaluates potential take of the Puerto Rican crested toad and presents conservation measures needed to add incidental take authority for this species to previously authorized incidental take associated with wind energy development.

Avoidance, minimization and mitigation measures include, but are not limited to: monitor Puerto Rican crested toad breeding events in order to adapt work plans and timing of covered activities while implementing measures to avoid and minimize take of dispersing toads and toadlets; install

fencing to keep Puerto Rican crested toads outside of certain areas of the project; and mitigation measures such as trapping and removing non-native, invasive predators, competitors, and invasive vegetation, as well as conduct research and implement measures to enhance breeding habitat.

Public Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

If you wish to comment, you may submit comments by any one of several methods. Please reference TE104073 in such comments. You may mail comments to the Fish and Wildlife Service's Regional Office (see **ADDRESSES**). You may also comment via the internet to david_dell@fws.gov. Please include your name and return address in your internet message. If you do not receive a confirmation from us that we have received your internet message, contact us directly at either telephone number listed under **FOR FURTHER INFORMATION CONTACT**.

Finally, you may hand-deliver comments to either of our offices listed under **ADDRESSES**.

Covered Area

The ITP covers a 290-ha (725-acre) wind generation facility including up to 25 turbines in Guayanilla, Puerto Rico. Puerto Rican crested toads have been observed in the Punta Ventana portion of the project. The Permittee proposes installation and operation of eight wind turbines in Punta Ventana over 79 ha (195 acres) that would affect about 5.1 ha (12.6 acres) of dry forest habitat. The revised HCP includes the site plan for the project and detailed information on the areas within Punta Ventana that would be affected by the construction and operation turbine sites, connecting roads, staging areas and connection to a substation.

Next Steps

We will evaluate the ITP amendment application, including the revised HCP and any comments we receive, to determine whether the amendment application meets the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether amendment of the section 10(a)(1)(B) ITP complies with

section 7 of the Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to amend the ITP. If we determine that the requirements are met, we will amend the ITP to include the Puerto Rican crested toad as a covered species for incidental take.

Authority: We provide this notice under section 10 of the Act (16 U.S.C. 1531 et seq.) and NEPA regulations (40 CFR 1506.6).

Dated: February 15, 2013.

Kenneth A. Garrahan,

Acting Regional Director.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Indian Gaming

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of Approved Tribal—State Class III Gaming Compact.

SUMMARY: This notice publishes an extension of the gaming compact between the Rosebud Sioux Tribe and the State of South Dakota.

DATES: *Effective Date:* March 12, 2013.

FOR FURTHER INFORMATION CONTACT:

Paula L. Hart, Director, Office of Indian Gaming, Office of the Deputy Assistant Secretary—Policy and Economic Development, Washington, DC 20240, (202) 219-4066.

SUPPLEMENTARY INFORMATION: Under Section 11 of the Indian Gaming Regulatory Act of 1988, 25 U.S.C. 2710(d)(3)(B), the Secretary of the Interior shall publish in the **Federal Register** notice of approved Tribal-State compacts for the purpose of engaging in Class III gaming activities on Indian lands. This amendment allows for the extension of the current Tribal-State Compact until August 19, 2013.

Dated: February 27, 2013.

Kevin K. Washburn,

Assistant Secretary—Indian Affairs.

National Park Service

[NPS-MWR-EFMO-10830; PPMWROW2/PPMPSAS1Y.YP0000]

Notice of Availability of Final General Management Plan/Environmental Impact Statement for Effigy Mounds National Monument, Iowa

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Final General Management Plan/Environmental Impact Statement (GMP/EIS) for Effigy Mounds National Monument (EFMO), Iowa.

DATES: The Final GMP/EIS will remain available for public review for 30 days following the publishing of the Notice of Availability in the **Federal Register** by the Environmental Protection Agency.

ADDRESSES: Copies of the Final GMP/EIS are available to the public by request by writing to the Superintendent, Effigy Mounds National Monument, 151 Highway 76, Harpers Ferry, Iowa 52146. The document is available on the internet at the NPS Planning, Environment, and Public Comment Web site at <http://www.parkplanning.nps.gov/indu.efmo>.

FOR FURTHER INFORMATION CONTACT:

Superintendent Jim Nepstad, Effigy Mounds National Monument, 151 Highway 76, Harpers Ferry, Iowa, at (563) 873-3491.

SUPPLEMENTARY INFORMATION: We, the NPS, have developed this GMP/EIS to guide the management of EFMO for the next 25 years. The Draft GMP/EIS considered three draft conceptual alternatives—a no-action and two action alternatives, including the NPS preferred alternative. The Draft GMP/EIS assessed impacts to cultural resources (archeological, landscapes, ethnographic resources, and museum collections), to natural resources (soils, wild and scenic rivers, vegetation, fish and wildlife, special status species, and visual resources/viewsheds), to visitor use and experience, to the socioeconomic environment, and to EFMO operations and facilities.

The preferred alternative in both the Draft GMP/EIS and Final GMP/EIS focuses on providing an enhanced visitor experience with increased understanding of EFMO while protecting and preserving natural and cultural resources. The desired visitor experience would be to make personal connections to EFMO's tangible resources through understanding of the
