SUPPLEMENTARY INFORMATION:

A. Purpose

Section 743(a) of Division C of the Consolidated Appropriations Act, 2010 (Pub. L. 111–117) requires executive agencies covered by the Federal Activities Inventory Reform FAIR Act (Pub. L. 105–270), except DoD, to submit to the Office of Management and Budget (OMB) annually an inventory of activities performed by service contractors. DoD is exempt from this reporting requirement because 10 U.S.C. 2462 and 10 U.S.C. 2330a(c) already require DoD to develop an annual service contract inventory.

House Report 111–366 notes, in connection with section 743, that, “in the absence of complete and reliable information on the extent of their reliance on service contractors, Federal agencies are not well-equipped to determine whether they have the right balance of contractor and in-house resources to accomplish their missions. Therefore, this rule intends to supplement agency annual service contract reporting requirements with the contractor provided service contract reporting information.

The information is to be submitted pursuant to a new clause and solicitation provision. Certain prime service contractors will provide annually—

a. The contract number, and, as applicable, order number.
b. The total dollar amount invoiced for services performed during the previous Government fiscal year under the contract;
c. The number of contractor direct labor hours expended on the services performed during the previous Government fiscal year; and
d. Data reported by subcontractors.

The prime contractor shall require each first-tier subcontractor performing under the contract to provide annually—

a. The subcontract number (including subcontractor name and if available, DUNS number); and
b. The number of first-tier subcontractor direct-labor hours expended on the services performed during the previous Government fiscal year.

In order to invoice the government for time-and-material/labor-hour (T&M/LH) and cost-reimbursement contracts, contractors already track labor hours expended, so the rule will cover T&M/LH and cost-reimbursement contracts over the simplified acquisition threshold.

In an effort to keep the reporting burden to the absolute minimum on civilian agencies and their service contractors, a phased-in approach will be used for fixed-price contract awards. Fixed price contracts will be covered if the estimated total value is at or above $5 million in FY 2013, $2.5 million in FY 2014, $1 million in FY 2015 and $500,000 in FY 2016 and thereafter.

For indefinite-delivery contracts, including but not limited to, indefinite-delivery indefinite-quantity (IDIQ) contracts, Federal Supply Schedule (FSS) contracts, Governmentwide Acquisition contracts (GWACs), and multi-agency contracts, reporting requirements will be determined based on the expected dollar amount and type of the orders issued under the contracts. Existing indefinite-delivery contracts will be bilaterally modified within six months of the effective date of the final rule if sufficient time and value remain on the base contract, which is defined as: (1) A performance period that extends beyond October 1, 2013, and (2) $5 million or more remaining to be obligated to the indefinite-delivery contract.

B. Discussion of Comment

Comment: One respondent considered the methodology used to calculate the hours needed to prepare responses and the reporting requirement estimates in the Paperwork Reduction Act (PRA) submission to be grossly underestimated.

Response: The Councils have reviewed the comment and believe the estimated time to report per contract is...
C. Annual Reporting Burden

Respondents: 23,845.
Responses/respondent: 1.
Total annual Responses: 23,845.
Preparation hours per response: 2.
Total response burden hours: 47,690.
