BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

[OMB No. 1121-0094]

Agency Information Collection Activities; Existing Collection; Comments Requested; Extension of a Currently Approved Collection: Annual Survey of Jails

ACTION: 30-Day Notice.

The Department of Justice (DOJ), Bureau of Justice Statistics, will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. The proposed information was previously published in the **Federal Register** Volume 78, Number 4, pages 959-961 on Monday, January 7, 2013, allowing a 60-day comment period. The burden estimate for local jails in the Annual Survey of Jails increased from 929 respondents as indicated in the 60-day notice to 950 respondents, due to the inclusion of 21 respondents from all other California jail jurisdictions not originally selected in the sample survey.

The purpose of this notice is to allow for an additional 30 days for public comment April 15, 2013.

If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Todd D. Minton, Bureau of Justice Statistics, 810 Seventh Street

NW., Washington, DC 20531 (phone: 202-305-9630).

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Revisions of a currently approved collection.

(2) *Title of the Form/Collection:* The Annual Survey of Jails (ASJ). The collection includes the forms: Annual Survey of Jails (ASJ), which includes the regular form and the certainty jurisdiction form; and the Survey of Jails in Indian Country (SJIC) regular form.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form numbers include:

- Annual Survey of Jails: This collection consists of four forms:
 - CJ-5 and CJ-5A, the ASJ regular forms: These forms go to jail jurisdictions in the ASJ sample that are not selected with certainty. The CJ-5 form goes to jail jurisdictions operated by the county or city and the CJ-5A goes to privately owned or operated confinement facilities. In an effort to assess the recent impact California jails have on the national jail population due to significant correctional policy changes in that state, non-sampled jail jurisdiction from California will also be included in the data collection, but not included in the national jail population estimate;

- CJ-5D and CJ-5DA, the ASJ certainty jurisdiction forms: The forms go to jail jurisdictions in the ASJ sample that are selected with certainty. The CJ-5D and CJ-5DA request additional information about the distribution of time served, staffing, and inmate misconduct that are not requested on the CJ-5 and CJ-5A. The CJ-5D goes to jurisdictions operated by the county or city; the CJ-5DA goes to confinement facilities administered by two or more governments and privately owned or operated confinement facilities.

- Survey of Jails in Indian Country (SJIC): All respondents receive the CJ-5B (the SJIC regular form).

The applicable component of the Department of Justice sponsoring the collection is the Bureau of Justice Statistics, which is within the Office of Justice Programs.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: The affected public that will be asked to respond include approximately 1,000 county, city, and Tribal jail authorities (950 respondents to the ASJ and 82 to the SJIC). As community institutions that book an estimated 12 million inmates per year, local jails are an integral part of the justice system, operating at the front end (that is, following arrest or referral) as well as the back end (discharging inmates and holding those sentenced to jail). Their broad functions include handling inmates who are awaiting trial or sentencing, holding inmates for other authorities, detaining inmates with special needs such as mental health holds or alcohol detoxifications, transferring inmates to court appearances and bringing them back to detention, discharging inmates at the behest of the court or other entities, and holding inmates who have been sentenced to terms in jail.

In response to the increase in the California jail population as the result of legislature and governor enacted laws to reduce the number of inmates housed in state prisons, BJS plans to collect data from the non-selected California jails in the sample survey to assess the impact on the national jail population. On May 23, 2011, the U.S. Supreme Court upheld the ruling by a lower three-judge court that the State of California must reduce its prison population to 137.5% of design capacity (approximately 110,000 prisoners) within two years to alleviate overcrowding. In response, the California State Legislature and governor enacted two laws—AB 109 and AB 117—to reduce the number of inmates housed in state prisons starting October 1, 2011. The Public Safety Realignment (PSR) policy is designed to
