COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED
Procurement List Additions
AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.
ACTION: Additions to the Procurement List.

SUMMARY: This action adds a product and service to the Procurement List that will be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

DATES: Effective Date: 4/15/2013.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, 1401 S. Clark Street, Suite 10800, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: Barry S. Lineback, Telephone: (703) 603–7740, Fax: (703) 603–0655, or email CMTEFedReg@AbilityOne.gov.

SUPPLEMENTARY INFORMATION:
Additions
On 1/18/2013 (78 FR 4133–4134), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the product and service and impact of the additions on the current or most recent contractors, the Committee has determined that the product and service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 8501–8506 and 41 CFR 51–2.4.

Regular Flexibility Act Certification
I certify that the following action will not have a significant impact on a substantial number of small entities.

The major factors considered for this certification were:
1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the product and service to the Government.
2. The action will result in authorizing small entities to furnish the product and service to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O’Day Act (41 U.S.C. 8501–8506) in connection with the product and service proposed for addition to the Procurement List.

End of Certification
Accordingly, the following product and service are added to the Procurement List:

Product
NSN: MR 1145—Server, Gravy Boat.
NPA: Winston-Salem Industries for the Blind, Inc., Winston-Salem, NC.
Contracting Activity: Defense Commissary Agency, Fort Lee, VA.
Coverage: C-List for the requirements of military commissaries and exchanges as aggregated by the Defense Commissary Agency.

Service
Service Type/Location: Mess Attendant Service McConnell Air Force Base, KS.
NPA: Training, Rehabilitation, & Development Institute, Inc., San Antonio, TX.
Contracting Activity: Dept Of The Air Force, FA4621 22 CONS LGC, McConnell AFB, KS.
Barry S. Lineback,
Director, Business Operations.

DEPARTMENT OF DEFENSE
Office of the Secretary
Notice for Termination of a Disease Management Demonstration Project for TRICARE Standard Beneficiaries
AGENCY: Office of the Secretary of Defense, (Health Affairs)/TRICARE Management Activity, DoD.
ACTION: Notice for termination of a Disease Management Demonstration Project for TRICARE Standard Beneficiaries.

SUMMARY: This notice is to advise interested parties of the termination of a Military Health System (MHS) demonstration project entitled “Disease Management Demonstration Project for TRICARE Standard Beneficiaries.” The demonstration provided disease management (DM) services to TRICARE Standard beneficiaries who are not eligible to receive some DM-like services under the basic benefit regulations. TRICARE began the demonstration project in March 2007 for Standard beneficiaries and this demonstration project has enabled the MHS to evaluate the programs and identify ways to improve the provision of effective services by detecting strengths and weaknesses of the programs, as well as evidence of best practices. As the TRICARE Management Activity (TMA) chose a phased approach, the demonstration was extended twice, on March 16, 2009 (74 FR 11089–11090), and again on March 4, 2011 (76 FR 12081–12082), to allow time for all program evaluations. TMA intends to continue to provide DM services to eligible TRICARE beneficiaries through strategies based on evidence-based best practices, beneficiary’s needs, plan category, and location of health care provision.

DATES: Effective date: March 31, 2013.
ADDRESSES: TRICARE Management Activity (TMA), 7700 Arlington Boulevard, Suite 5101, Falls Church, VA 22042–5101.
FOR FURTHER INFORMATION CONTACT: Robin Marzullo, TRICARE Management
Activity, Office of the Chief Medical Officer (703) 681–6173.

SUPPLEMENTARY INFORMATION: As a result of Section 734 of the 2007 National Defense Authorization Act, the MHS implemented uniform policies and practices for DM throughout the TRICARE network. To include the Standard beneficiaries, who could not receive many of the services that are the cornerstone of DM per the Basic Benefit Regulations, a two year demonstration notice was published June 13 2007 (72 FR 32628–32629). The demonstration project provided for measuring the effectiveness of the DM programs in improving the health of TRICARE beneficiaries with chronic conditions. In addition, it allowed the MHS to identify best practices for improving the care management services for individuals with chronic conditions. The demonstration was extended twice. On March 16, 2009 a notice (74 FR 11089–11090) was published that extended the demonstration through March 31, 2011 and on March 4, 2011 (76 FR 12081–12082) further extended the demonstration through March 31, 2013. For several years, TRICARE has been evaluating the best way to provide assistance to people with certain chronic medical conditions. Based on TRICARE’s evaluation of best health care practices, we found that chronic medical conditions are best managed as a routine part of good medical practice, and when structured to fit the individual beneficiary’s circumstances and their specific health plan. Multiple analyses of the DM program were conducted, and in that same time period other studies for similar programs were piloted nationally that provided additional insight. The results of these analyses and literature reviews provided identification of evidence-based best practices that support the future direction of the MHS disease and chronic condition management programs. These best practices include team based—provider directed care, care coordination, self-management education and transitional care services that target at risk populations, have access to timely data, close interactions with care coordinators and primary care physicians, face-to-face contact with individuals involved in their own care, and supported by practices predominantly staffed by registered nurses.

Given the focus with the primary care provider in moving forward with disease and chronic care management, and the lack of an integrated provider for the Standard beneficiaries, TMA has determined that the best course is for the Standard beneficiaries to receive disease and chronic care management direction from the provider of their choosing. TMA envisions the following scenarios related to the distinct structures of the health care benefit within TRICARE (Direct Care through the Military Treatment Facilities, Private Sector Care through contracted and non-contracted network providers, the US Family Health Plans etc.), chronic care management based on the above mentioned best-practices will be available to beneficiaries and adapted based on these factors. The DM services will also take into consideration the different benefit plans available (Prime, which operates like an HMO and requires enrollment with a primary care provider, vs. Standard which functions as a fee-for-service plan), and will modify the chronic care services provided to best match that plan. For example, Prime beneficiaries enrolled at an MTF would receive their services through a Patient-Centered Medical Home (where available). A Prime beneficiary enrolled to the network would receive DM services provided through the Managed Care Support Contractor’s program. A Standard beneficiary not enrolled to a primary care provider, would receive disease and chronic care management from their chosen provider inside or outside the network, and would have access to disease specific educational information through the regional contractor Web sites or TRICARE online. Since the standard beneficiaries are not required to enroll with a primary care provider, and there is no visibility to the services they receive outside the network, it is not practicable to determine if they are receiving the recommended best-practices, and in turn to measure outcomes and determine effectiveness of care. As a result, it has been determined that Standard beneficiaries are best served being care-managed by the provider of their choosing; the provider being familiar with the Standard beneficiaries gaps in care and on-going needs.

TMA has developed a strategic plan for the on-going provision of disease and chronic care management services, based on the evidence-based best practices noted above, and have determined that the need for this demonstration has ceased. It is important to note that the end of this demonstration does not change the basic benefit for the Standard beneficiaries; they will continue to have access to all the services identified in 32 CFR 199.4.
