ENVIRONMENTAL PROTECTION AGENCY

[EPA-R09-OAR-2013-0168; FRL-9792-5]

Adequacy Status of Motor Vehicle Emissions Budgets in Submitted Ozone Maintenance Plan for San Diego County; California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this notice, EPA is notifying the public that the Agency has found that the motor vehicle emissions budgets (MVEBs) for ozone for the years 2020 and 2025 in the *Redesignation Request and Maintenance Plan for the 1997 National Ozone Standard for San Diego County (December 2012)* ("San Diego Ozone Redesignation Request and Maintenance Plan") are adequate for transportation conformity purposes. The San Diego Redesignation Request and Ozone Maintenance Plan was submitted to EPA on December 28, 2012 by the California Air Resources Board (CARB) as a revision to the California State Implementation Plan (SIP) and includes a maintenance plan for the 1997 8-hour ozone national ambient air quality standard. As a result of our adequacy findings, the San Diego Association of Governments and the U.S. Department of Transportation must use the MVEBs for future conformity determinations.

DATES: This finding is effective April 4, 2013.

FOR FURTHER INFORMATION CONTACT: John Ungvarsky, U.S. EPA, Region IX, Air Division AIR-2, 75 Hawthorne Street, San Francisco, CA 94105-3901, (415) 972-3963 or ungvarsky.john@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document, whenever "we," "us," or "our" is used, we mean EPA.

Today's notice is simply an announcement of a finding that we have already made. EPA Region IX sent a letter to CARB on March 11, 2013 stating that the MVEBs in the submitted San Diego Ozone Redesignation Request and Maintenance Plan for the years of 2020 and 2025 are adequate. The adequate MVEBs are provided in the following table:

MVEBS IN THE SAN DIEGO OZONE MAINTENANCE PLAN

[Average summer day, tons per day]

Budget year	Volatile organic compounds	Oxides of nitrogen
2020	23	38
2025	21	30

Receipt of the MVEBs in the San Diego Ozone Redesignation Request and Maintenance Plan was announced on EPA's transportation conformity Web site on December 20, 2012. We received no comments in response to the adequacy review posting. The finding is available at EPA's transportation conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>.

Transportation conformity is required by Clean Air Act section 176(c). EPA's conformity rule requires that transportation plans, transportation improvement programs, and projects conform to SIPs and establishes the criteria and procedures for determining whether or not they do conform. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's MVEBs are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4) which was promulgated in our August 15, 1997 final rule (62 FR 43780, 43781-43783). We have further described our process for determining the adequacy of submitted SIP budgets in our July 1, 2004 final rule (69 FR 40004, 40038), and we used the information in these resources in making our adequacy determination. Please note that an adequacy review is separate from EPA's completeness review, and should not be used to prejudge EPA's ultimate approval action for the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

Regional Administrator, Region IX.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for

review and approval according to the procedures prescribed in 5 CFR 1320.12. On October 17, 2012 (77 FR 63813), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2012-0677, which is available for either public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> either to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidentiality of Business Information (CBI), or other information whose public disclosure is restricted by statute. Title: NSPS for Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction or Modification Commenced After June 11, 1973 and Prior to May 19, 1978 (Renewal).

ICR Numbers: EPA ICR Number 1797.06, OMB Control Number 2060-0442.

ICR Status: This ICR is scheduled to expire on June 30, 2013. Under OMB regulations, the Agency may continue to either conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60,

subpart K. Owners or operators of the affected facilities must submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required annually at a minimum.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are the owners or operators of petroleum liquid storage vessels.

Estimated Number of Respondents: 220.

Frequency of Response: Initially, occasionally, and annually.

Estimated Total Annual Hour Burden: 769.

Estimated Total Annual Cost: \$74,473, which includes \$74,473 in labor costs, with no capital/startup costs, or operation and maintenance (O&M) costs.

Changes in the Estimates: There is an increase in the total estimated respondent cost as currently identified in the OMB Inventory of Approved Burdens. The cost increase from the most recently approved ICR is due to the use of updated labor rates, and is not due to any program changes. This ICR references labor rates from the Bureau of Labor Statistics to calculate the respondent cost burden.

There is no change to either the respondent burden hours or the Agency burden hours and cost in this ICR as compared to the previous ICR. This is due to two considerations: (1) the regulations have not changed over the

past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative, or non-existent. Therefore, the labor hours in the previous ICR reflect the current burden to respondents and are reiterated in this ICR.

John Moses,

Director, Collection Strategies Division.
