The items of discussion are as follows:

Public Hearing: Amendment 30 to the Snapper Grouper FMP

1. This amendment considers a requirement for vessels with a Federal South Atlantic Commercial Snapper Grouper Permit that harvest snapper grouper stocks to be equipped with a satellite communications system (Vessel Monitoring Systems or VMS) in order to monitor fishing activities. The SAFMC is not considering a requirement for VMS on recreational or for-hire vessels unless these vessels also have a Federal South Atlantic Commercial Snapper Grouper Permit.

2. Written comments may be directed to Bob Mahood, Executive Director, SAFMC (see *Council address*) or via email to: SGAmend30Comments@safmc.net. Comments will be accepted until 5 p.m. on May 3, 2013.

Council staff will present an overview of the amendment and will be available for informal discussions and to answer questions. Members of the public will have an opportunity to go on record after the presentation to record their comments on the public hearing topics for consideration by the Council. Local Council representatives will attend the meetings and listen to public comment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the council office (see **ADDRESSES**) 3 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Dated: March 18, 2013.

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 31 Gulf of Mexico Red Snapper Assessment Workshop Webinars 7 and 8.

SUMMARY: The SEDAR 31 assessment of the Gulf of Mexico red snapper fishery will consist of a series of workshops and supplemental webinars. This notice is for two webinars in the Assessment Workshop portion of the SEDAR process. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 31 Assessment Workshop Webinars 7 and 8 will be held on April 11 and 18, 2013, respectively. The webinars will begin at 1 p.m. and conclude no later than 5 p.m. EDT.

ADDRESSES: *Meeting address:* The SEDAR 31 Assessment Workshop Webinars 7 and 8 will be held via GoToWebinar. The webinars are open to members of the public. Those interested in participating should contact Ryan Rindone at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request meeting information at least 24 hours in advance.

SEDAR address: 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Ryan Rindone, SEDAR Coordinator; telephone: (813) 348–1630; email: ryan.rindone@gulfcouncil.org.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process including a workshop and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report

which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Consensus Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the SEDAR 31 Assessment Workshop Webinars 7 and 8 are as follows:

Panelists will continue to review the progress of modeling efforts for Gulf of Mexico red snapper.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are accessible to people with disabilities. Requests for auxiliary aids should be directed to the SEDAR office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Dated: March 18, 2013.
