

FOR FURTHER INFORMATION CONTACT: Carrie Hubbard or Kristy Beard, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216). The applicant is requesting authorization to conduct two photography/filming projects. The first would consist of helicopter flights over Florida Bay to capture bottlenose dolphins mud-ring feeding. A maximum of 400 dolphins may be harassed during the filming. The second project would focus on areas where spinner dolphins and humans interact in Hawaii. Locations would include the west side of Oahu and four bays on the Kona coast of Hawaii Island. Methods include both vessel-based and underwater photography. Up to 75 spinner dolphins may be approached within 50 yards during the filming. Four pantropical spotted dolphins (*Stenella attenuata*) may also be approached if they are associated with spinner dolphins. Images and video from both locations will be used for a feature story in *National Geographic Magazine* on dolphin cognition and intelligence. Dolphin researchers familiar to each filming location are working as scientific advisors with the applicant. Both projects are currently scheduled for two week timeframes in summer 2013. To allow for scheduling changes, the permit would be valid until March 2014.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: March 18, 2013.
