Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2008-0224]

Parts and Accessories Necessary for Safe Operation; Exemption Renewal for Greyhound Lines, Inc.

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemption; request for comments.

SUMMARY: FMCSA renews Greyhound Lines, Inc.'s (Greyhound) exemption which allows the placement of video event recorders at the top of the windshields on its buses. The Agency has concluded that granting this exemption renewal will maintain a level of safety that is equivalent to, or greater than, the level of safety achieved without the exemption. However, the Agency requests comments on this issue, especially from anyone who believes this standard will not be maintained.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315(b)(1), FMCSA may renew an exemption from the Federal Motor Carrier Safety Regulations for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." Greyhound has requested a two-year extension for its exemption from 49 CFR 393.60(e). The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Basis for Renewing Exemption

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two-year periods. On March 19, 2008, Greyhound applied for an exemption from 49 CFR 393.60(e)(1) to allow it to install video event

recorders on some or all of its bus fleet. On March 19, 2009, FMCSA published a notice of final disposition in the **Federal Register** granting the exemption (74 FR 11807). On March 22, 2011, FMCSA published a notice of final disposition renewing this exemption until March 20, 2013. The renewal outlined in this notice extends the exemption through March 20, 2015, and requests public comment.

FMCSA is not aware of any evidence showing that the installation of video event recorders on Greyhound's buses, in accordance with the conditions of the original exemption, has resulted in any degradation in safety. The Agency believes that extending the exemption for a period of two years will likely achieve a level of safety that is equivalent to, or greater than, the level of safety achieved without the exemption because: (1) The video event recorders will not obstruct drivers' views of the roadway, highway signs and surrounding traffic due to the fact that the panoramic windshields installed on Greyhound's buses encompass a large percentage of the front of buses and extend well above the driver's sight lines; (2) larger windshield wipers installed on Greyhound's buses increase the swept area well beyond that which is recommended by SAE International's guidelines for commercial vehicles; and (3) placement of video event recorders just below the larger swept area of the wipers will be well outside of the driver's useable sight lines. Finally, Greyhound installed DriveCam video event recorders on 90 of its buses operated by their BoltBus division and experienced a 27% reduction in collisions in 2011.

Request for Comments

FMCSA requests comments from parties with data concerning the safety record of CMVs operated by Greyhound and equipped with video event recorders by April 22, 2013. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b)(1), FMCSA will take immediate steps to revoke the Greyhound exemption.

Issued on: March 18, 2013.

Administrator.
