Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.
 In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the Agency's function; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to

be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. Type of Information Collection Request: New collection; **Title:** Consumer Assessment of Healthcare Providers and Systems (CAHPS) Survey for Physician Quality Reporting; **Use:** The Physician Quality Reporting System (PQRS) was established in 2006 as a voluntary "pay-for-reporting" program that allows physicians and other eligible healthcare professionals to report information to Medicare about the quality of care provided to beneficiaries who have certain medical conditions. The PQRS provides incentive payments to physicians who report quality data. Since the program's inception, these results have not been publicly available for use by consumers.

The Physician Compare Web site was launched December 30, 2010, to meet requirements set forth by Section 10331 of the Affordable Care Act (ACA). The ACA requires CMS to establish a Physician Compare Web site by January 1, 2011, containing information on physicians enrolled in the Medicare program and other eligible professionals who participate in the Physician Quality Reporting Initiative. By no later than January 1, 2013 (and for reporting periods beginning no earlier than January 1, 2012), CMS is required to implement a plan to make information on physician performance publicly available through Physician Compare. A key component of the reporting requirements under the ACA is public reporting on physician performance that includes patient experience measures. The collection and reporting of a Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey for Physician Quality Reporting will fulfill this requirement.

The U.S. Department of Health and Human Services (HHS) has developed the National Quality Strategy that was called for under the ACA to create national aims and priorities to guide local, state, and national efforts to
