B. Basis and Purpose

On September 21, 2013, The Peterson Companies of National Harbor, Maryland, is sponsoring the Red Bull Flugtag National Harbor event, a competition held along the Potomac River at National Harbor, Maryland. Approximately 30 competing teams will operate homemade, human-powered flying devices launched from a ramp constructed at National Harbor, located downriver from the Woodrow Wilson Memorial (I–495/I–95) Bridge, in Maryland. The competitors will be supported by sponsor-provided watercraft. The sponsor estimates 10,000 spectators during the event. The Coast Guard anticipates a large spectator vessel fleet present during the event.

The legal basis for the rule is the Coast Guard’s authority to establish special local regulations: 33 U.S.C. 1233. The purpose of the rule is to

ensure safety of life on navigable waters of the United States during the Red Bull Flugtag National Harbor event.

C. Discussion of Proposed Rule

The Coast Guard proposes to establish special local regulations on specified waters of the Potomac River. The regulations will be effective from 9 a.m. to 7 p.m. on September 21, 2013. The regulated area, approximately 600 yards in length and 500 yards in width and extends across the entire width of the National Harbor Access Channel, includes all waters of the Potomac River, contained within lines connecting the following points: from the shoreline at position latitude 38°46'51" N, longitude 077°01'31" W, thence northerly to position latitude 38°47'02" N, longitude 077°01'35" W, thence easterly to position latitude 38°47'05" N, longitude 077°01'22" W, thence southeasterly to the shoreline at position latitude 38°46'56" N, longitude 077°01'07" W. An event area and a designated spectator area exist within this regulated area. The event area, where all persons and vessels, except those persons and vessels participating in the competition, are prohibited from entering, transiting through, anchoring in, or remaining within, includes all waters of the Potomac River, contained within lines connecting the following points: from the shoreline at position latitude 38°46'51" N, longitude 077°01'31" W, thence northerly to position latitude 38°46'52" N, longitude 077°01'31" W, thence easterly to position latitude 38°46'54" N, longitude 077°01'17" W, thence northerly to position latitude 38°46'59" N, longitude 077°01'14" W, thence southeasterly to the shoreline at position latitude 38°46'56" N, longitude 077°01'07" W. The designated spectator area, where all vessels are prohibited from transiting in excess of wake speed unless authorized by the Captain of the Port Baltimore or his designated representative and persons and vessels may request authorization to enter, transit through, anchor in, or remain within, includes all waters of the Potomac River, within lines connecting the following positions: from 38°46'53" N, longitude 077°01'32" W, thence northerly to latitude 38°47'02" N, longitude 077°01'35" W, thence easterly to position latitude 38°47'05" N, longitude 077°01'22" W, thence southeasterly to position latitude 38°47'02" N, longitude 077°01'16" W, thence southwestwardly to position latitude 38°46'58" N, longitude 077°01'18" W, thence southwestwardly to position latitude 38°46'55" N, longitude 077°01'22" W, thence westerly to

position latitude 38°46'53" N, longitude 077°01'32" W.

The effect of this proposed rule will be to restrict general navigation in the regulated area during the event. Vessels intending to transit the Potomac River through the regulated area, including the National Harbor Access Channel, will only be allowed to safely transit the regulated area when the Coast Guard Patrol Commander has deemed it safe to do so. Due to the need for vessel control during the event, the Coast Guard will temporarily restrict vessel traffic in the event area to provide for the safety of participants, spectators and other transiting vessels. The Coast Guard will provide notice of the special local regulations by Local Notice to Mariners, Broadcast Notice to Mariners, and on-scene designated representatives.

D. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

The economic impact of this rule is not significant for the following reasons: (1) The special local regulations will be enforced for only 10 hours; (2) although persons and vessels will not be able to enter, transit through, anchor in, or remain within the event area, without authorization from the Captain of the Port Baltimore or his designated representative, they may operate in the surrounding area during the enforcement period; (3) persons and vessels may still enter, transit through, anchor in, or remain within the designated spectator area during the enforcement period; (4) persons and vessels may still enter and transit through the National Harbor Access Channel, within the regulated area during the enforcement period, with prior authorization from the Captain of the Port Baltimore or his designated representative and without loitering; and (5) the Coast Guard will provide advance notification of the special local

regulations to the local maritime community by Local Notice to Mariners and Broadcast Notice to Mariners.

2. Impact on Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered the impact of this proposed rule on small entities. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities.

This rule may affect the following entities, some of which may be small entities: The owners or operators of vessels intending to enter, transit through, anchor in, or remain within that portion of Potomac River encompassed within the special local regulations from 9 a.m. until 7 p.m. on September 21, 2013. For the reasons discussed in the Regulatory Planning and Review section above, this rule will not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the

various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the "For Further Information Contact" section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or

more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a "significant energy action" under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves special local regulations issued in conjunction with a regatta or marine parade. This rule is categorically excluded from further review under paragraph 34(h) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
