

Middle Class Tax Relief and Job Creation Act of 2012; Establishment of a Public Safety Answering Point Do-Not-Call Registry, Report and Order (*Order*). This notice is consistent with the *Order*, which stated that the Commission would publish a document in the **Federal Register** announcing OMB approval and the effective date of the requirements. Once the operational details of the PSAP Do-Not-Call Registry have been finalized, the Commission intends to issue a Public Notice noting the date by which affected entities must begin complying with these requirements.

DATES: 47 CFR 1.80 and 64.1202, published at 77 FR 71131, November 29, 2012, and at 78 FR 10099, February 13, 2013, are effective March 26, 2013.

FOR FURTHER INFORMATION CONTACT: Richard D. Smith, Consumer and Governmental Affairs Bureau at (717) 338-2797, or email Richard.Smith@fcc.gov.

SUPPLEMENTARY INFORMATION: This document announces that, on March 13, 2013, OMB approved, for a period of three years, the new information collection requirements contained in the Commission's *Order*, FCC 12-129, published at 77 FR 71131, November 29, 2012, and at 78 FR 10099, February 13, 2013. The OMB Control Number is 3060-1183. The Commission publishes this notice as an announcement of the effective date of the requirements. If you have any comments on the burden estimates listed below, or how the Commission can improve the collections and reduce any burdens caused thereby, please contact Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street SW., Washington, DC 20554. Please include the OMB Control Number, 3060-1183, in your correspondence. The Commission will also accept your comments via the Internet if you send them to PRA@fcc.gov.

To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (TTY).

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received OMB approval on March 13, 2013, for the new information collection requirements contained in the Commission's rules published at 77 FR

71131, November 29, 2012, and at 78 FR 10099, February 13, 2013.

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060-1183.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060-1183.

OMB Approval Date: March 13, 2013.

OMB Expiration Date: March 31, 2016.

Title: Establishment of a Public Safety Answering Point Do-Not-Call Registry, CG Docket No. 12-129.

Form Number: N/A.

Type of Review: New collection.

Respondents: Businesses or other for-profit entities; Federal Government; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents and Responses: 106,500 respondents; 1,446,333 responses.

Estimated Time per Response: 30 minutes (.50 hours) to 2 hours.

Frequency of Response: Recordkeeping requirement; Annual, monthly, on occasion and one-time reporting requirements.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for the information collection is found in the Middle Class Tax Relief and Job Creation Act of 2012, Public Law 112-96, February 22, 2012.

Total Annual Burden: 792,667 hours.

Total Annual Cost: None.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information (PII) from individuals.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The rules adopted herein establish recordkeeping requirements for a large variety of entities, including small business entities. First, each Public Safety Answering Point (PSAP) may designate a representative who shall be required to file a certification with the administrator of the PSAP registry that they are authorized to place numbers onto that registry. The designated PSAP

representative shall provide contact information including the PSAP represented, name, title, address, telephone number and email address. Verified PSAPs shall be permitted to upload to the registry any PSAP telephone associated with the provision of emergency services or communications with other public safety agencies. On an annual basis designated PSAP representatives shall access the registry, review their numbers and remove any ineligible numbers from the registry. Second, an operator of automatic dialing equipment (OADE) is prohibited from contacting any number on the PSAP registry. Each OADE must register for access to the PSAP registry by providing contact information which includes name, business address, contact person, telephone number, email, and all outbound telephone numbers used to place autodialed calls. All such contact information must be updated within 30 days of any change. In addition, the OADE must certify that it is accessing the registry solely to prevent autodialed calls to numbers on the registry. An OADE must access and employ a version of the PSAP registry obtained from the registry administrator no more than 31 days prior to the date any call is made, and maintain record documenting this process. No person or entity may sell, rent, lease, purchase, share, or use the PSAP registry for any purpose expect to comply with our rules prohibiting contact with numbers on the registry.

Federal Communications Commission.

Gloria J. Miles,

Federal Register Liaison, Office of the Secretary, Office of Managing Director.

RIN 0648-XC574

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2013 Accountability Measures for Species in the U. S. Caribbean

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; accountability measures.

SUMMARY: NMFS implements accountability measures (AMs) for species and species groups in the exclusive economic zone of the U.S. Caribbean (EEZ) for the 2013 fishing year through this temporary rule. NMFS has determined that several annual catch limits (ACLs), as estimated by the Science and Research Director (SRD), were exceeded during the 2010 or 2011 fishing years. This temporary rule reduces the length of the 2013 fishing season for these species and species groups by the amount necessary to ensure that landings do not exceed the applicable ACL in 2013. NMFS implements AMs for the following species and species groups as of the date specified until the end of the fishing year: Snapper Unit 2 (commercial) in the EEZ off Puerto Rico, September 21, 2013; wrasses (recreational) in the EEZ off Puerto Rico, October 21, 2013; triggerfish and filefish in the EEZ off St. Croix, November 21, 2013; spiny lobster in the EEZ off St. Croix, December 19, 2013; groupers in the EEZ off St. Thomas/St. John, December 20, 2013. These AMs are necessary to protect the Caribbean reef fish and spiny lobster resources.

DATES: This rule is effective April 25, 2013 through December 31, 2013. Snapper Unit 2 (commercial) AMs in the EEZ off Puerto Rico are effective 12:01 a.m., local time, September 21, 2013, until 12:01 a.m., local time, January 1, 2014. Wrasses (recreational) AMs in the EEZ off Puerto Rico are effective 12:01 a.m., local time, October 21, 2013, until 12:01 a.m., local time, January 1, 2014. Triggerfish and filefish AMs in the EEZ off St. Croix are effective 12:01 a.m., local time, November 21, 2013, until 12:01 a.m., local time, January 1, 2014. Spiny lobster AMs in the EEZ off St. Croix are effective 12:01 a.m., local time, December 19, 2013, until 12:01 a.m., local time, January 1, 2014. Groupers AMs in the EEZ off St. Thomas/St. John are effective 12:01 a.m., local time, December 20, 2013, until 12:01 a.m., local time, January 1, 2014.

FOR FURTHER INFORMATION CONTACT: William S. Arnold, telephone: 727-824-5305, email: Bill.Arnold@noaa.gov.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Caribbean, which includes snappers in Snapper Unit 2, triggerfish and filefish, wrasses, and groupers, is managed under the Fishery Management Plan (FMP) for the Reef Fish Fishery of Puerto Rico and the U.S. Virgin Islands (Reef Fish FMP). Spiny

lobster of the Caribbean is managed under the FMP for the Spiny Lobster Fishery of Puerto Rico and the U.S. Virgin Islands (Spiny Lobster FMP). The Spiny Lobster FMP and the Reef Fish FMP were prepared by the Caribbean Fishery Management Council and are implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622. The ACLs specified in this temporary rule are given in round weight.

Background

The Magnuson-Stevens Act requires that ACLs and AMs be established to end overfishing and prevent overfishing from occurring. ACLs are levels of annual catch of a stock or stock complex that are set to prevent overfishing from occurring. AMs are management controls to prevent ACLs from being exceeded, and to correct or mitigate overages of the ACL if they occur.

The final rule for the 2010 Caribbean ACL Amendment published on December 30, 2011 (76 FR 82404), established, in part, ACLs and AMs for reef fish units or sub-units that are classified as undergoing overfishing, including the species with ACL overages identified in this temporary rule: snappers in Snapper Unit 2 (cardinal and queen snapper), and groupers in Grouper Unit 3 (coney, graysby, red hind, and rock hind), Grouper Unit 4 (black grouper, red grouper, tiger grouper, and yellowfin grouper), and Grouper Unit 5 (misty grouper and yellowedge grouper). That final rule allocated these ACLs among three Caribbean island management areas, *i.e.*, the Puerto Rico, St. Croix, and St. Thomas/St. John management areas of the EEZ, as specified in Appendix E to part 622.

The final rule for the 2011 Caribbean ACL Amendment published on December 30, 2011 (76 FR 82414), established, in part, ACLs and AMs for species and species groups that were not determined to be undergoing overfishing, including the species with ACL overages identified in this temporary rule: spiny lobster and specific reef fish including wrasses (hogfish, puddingwife, and Spanish hogfish), triggerfish (ocean triggerfish, queen triggerfish, and sargassum triggerfish), and filefish (scrawled filefish, whitespotted filefish, and black durgon). That final rule allocated these ACLs among the three Caribbean island management areas.

Each ACL allocated to Puerto Rico is also allocated between the commercial and recreational sectors because both

commercial and recreational sector landings are available. For the St. Croix and St. Thomas/St. John island management areas, only commercial data are available. Therefore, each ACL for the St. Croix and St. Thomas/St. John island management areas applies to both the commercial and recreational sectors.

Accountability Measures

Pursuant to the AMs established in the Reef Fish FMP and the Spiny Lobster FMP, the AMs that apply to each of the species or species groups addressed in this temporary rule are as follows: if landings from a Caribbean island management area, as specified in Appendix E to part 622, are estimated by the SRD to have exceeded the applicable ACL, the Assistant Administrator for Fisheries, NOAA, (AA), will file a notification with the Office of the Federal Register, at or near the beginning of the following fishing year, to reduce the length of the fishing season for the applicable species or species groups that year by the amount necessary to ensure landings do not exceed the applicable ACL, as specified at 50 CFR 622.49(c). Landings will be evaluated relative to the applicable ACL based on a moving multi-year average of landings, as described in the FMP. However, if NMFS determines the ACL for a particular species or species group was exceeded because of enhanced data collection and monitoring efforts instead of an increase in total catch of the species or species group, NMFS will not reduce the length of the fishing season for the applicable species or species group the following fishing year. NMFS has determined that the ACLs for the species and species groups in this temporary rule were exceeded because of an increase in total catch and not because of enhanced data collection and monitoring methods. Therefore, NMFS reduces the length of the 2013 fishing season for these species and species groups by the amount necessary to ensure that landings do not exceed the applicable ACL in 2013.

Some of the species contained in this temporary rule have specific prohibited and limited-harvest species limitations. These limitations apply without regard to whether the species is harvested by a vessel operating under a valid commercial fishing license issued by Puerto Rico or the U.S. Virgin Islands or by a person subject to the bag limits, as specified at 50 CFR 622.32(b)(1).

Puerto Rico Commercial Snapper Unit 2

The commercial ACL for Snapper Unit 2 in the Puerto Rico management

area is 145,916 lb (66,186 kg), as specified at 50 CFR 622.49(c)(1)(i)(D).

NMFS has determined the commercial ACL for Snapper Unit 2 based on 2010–2011 data has been exceeded. Therefore, this temporary rule implements AMs for the commercial sector for Snapper Unit 2 to reduce the 2013 fishing season to ensure landings do not exceed the commercial ACL for Snapper Unit 2 in the 2013 fishing year. The 2013 fishing season for the commercial sector for Snapper Unit 2 in or from the Puerto Rico management area of the EEZ ends effective September 21, 2013. The 2014 fishing season begins 12:01 a.m., local time, January 1, 2014.

Puerto Rico Recreational Wrasses

The recreational ACL for wrasses in the Puerto Rico management area is 5,050 lb (2,291 kg), as specified at 50 CFR 622.49(c)(1)(ii)(L).

NMFS has determined the recreational ACL for wrasses based on 2011 data has been exceeded. Therefore, this temporary rule implements AMs for the recreational sector for wrasses to reduce the 2013 fishing season to ensure landings do not exceed the recreational ACL for wrasses in the 2013 fishing year. The 2013 fishing season for the recreational sector for wrasses in or from the Puerto Rico management area of the EEZ ends effective October 21, 2013. The 2014 fishing season begins 12:01 a.m., local time, January 1, 2014.

St. Croix Triggerfish and Filefish

The ACL for triggerfish and filefish in the St. Croix management area is 24,980 lb (11,331 kg), as specified at 50 CFR 622.49(c)(2)(i)(N).

NMFS has determined the ACL for triggerfish and filefish based on 2011 data has been exceeded. Therefore, this temporary rule implements AMs for triggerfish and filefish to reduce the 2013 fishing season to ensure landings do not exceed the stock ACL for triggerfish and filefish in the 2013 fishing year. The 2013 fishing season for triggerfish and filefish in or from the St. Croix management area of the EEZ ends effective November 21, 2013. The 2014 fishing season begins 12:01 a.m., local time, January 1, 2014.

St. Croix Spiny Lobster

The ACL for spiny lobster, in the St. Croix management area is 107,307 lb (48,674 kg), as specified at 50 CFR 622.49(c)(2)(i)(O).

NMFS has determined the ACL for spiny lobster based on 2011 data has been exceeded. Therefore, this temporary rule implements AMs for spiny lobster to reduce the 2013 fishing

season to ensure landings do not exceed the ACL for spiny lobster in the 2013 fishing year. The 2013 fishing season for spiny lobster in or from the St. Croix management area of the EEZ ends effective December 19, 2013. The 2014 fishing season begins 12:01 a.m., local time, January 1, 2014.

St. Thomas/St. John Groupers

The ACL for groupers, in the St. Thomas/St. John management area is 51,849 lb (23,518 kg), as specified at 50 CFR 622.49(c)(3)(i)(D).

NMFS has determined the ACL for groupers based on 2010–2011 data has been exceeded. Therefore, this temporary rule implements AMs for groupers to reduce the 2013 fishing season to ensure landings do not exceed the ACL for groupers in the 2013 fishing year. The 2013 fishing season for groupers in or from the St. Thomas/St. John management area of the EEZ ends effective December 20, 2013. The 2014 fishing season begins 12:01 a.m., local time, January 1, 2014.

Classification

The Regional Administrator, Southeast Region, NMFS, has determined this temporary rule is necessary for the conservation and management of the Caribbean reef fish and spiny lobster fisheries and is consistent with the Magnuson-Stevens Act, the FMPs, and other applicable laws.

This action is taken under 50 CFR 622.49(c) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best available information recently obtained from the fisheries. The AA finds there is good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B). Such procedures would be unnecessary because the rules implementing the ACLs and AMs for these species and species groups have been subject to notice and comment, and all that remains is to notify the public that the ACLs were exceeded and that the AMs for these species and species groups are being implemented for the 2013 fishing year.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 21, 2013.

Kara Meckley,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 660

[Docket No. 120924487-3221-02]

RIN 0648-XC263

Fisheries Off West Coast States; Coastal Pelagic Species Fisheries; Annual Specifications

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule to implement the annual catch limit (ACL), harvest guideline (HG), annual catch target (ACT) and associated annual reference points for Pacific mackerel in the U.S. exclusive economic zone (EEZ) off the Pacific coast for the fishing season of July 1, 2012, through June 30, 2013. These specifications were determined according to the Coastal Pelagic Species (CPS) Fishery Management Plan (FMP). The 2012–2013 ACL or maximum HG for Pacific mackerel is 40,514 metric tons (mt). The proposed ACT, which will be the directed fishing harvest target, is 30,386 mt. If the fishery attains the ACT, the directed fishery will close, reserving the difference between the ACL and ACT (10,128 mt) as a set aside for incidental landings in other CPS fisheries and other sources of mortality. This rule is intended to conserve and manage the Pacific mackerel stock off the U.S. West Coast.

DATES: Effective March 26, 2013 through June 30, 2013.

FOR FURTHER INFORMATION CONTACT: Joshua Lindsay, Southwest Region, NMFS, (562) 980-4034.

SUPPLEMENTARY INFORMATION: During public meetings each year, the estimated biomass for Pacific mackerel is presented to the Pacific Fishery Management Council's (Council) Coastal Pelagic Species (CPS) Management Team (Team), the Council's CPS Advisory Subpanel (Subpanel) and the Council's Scientific and Statistical Committee (SSC), where the biomass and the status of the fisheries are
