 Application for Mediation Services
 Type of Review: Extension.
 Title: Application for Mediation Services, OMB Number: 3140–0002.
 Frequency: On occasion.
 Affected Public: Carrier and Union Officials, and employees of railroads and airlines.
 Reporting and Recordkeeping Hour Burden:
 Responses: 50 annually.
 Burden Hours: 12.50.
 Abstract: Section 5, First of the Railway Labor Act, 45 U.S.C., 155, First, provides that both, or either, of the parties to the labor-management dispute may invoke the mediation services of the National Mediation Board. Congress has determined that it is in the nation’s best interest to provide for governmental mediation as the primary dispute resolution mechanism to resolve labor-management disputes in the railroad and airline industries. The Railway Labor Act is silent as to how the invocation of mediation is to be accomplished and the Board has not promulgated regulations requiring any specific vehicle. Nonetheless, 29 CFR 1203.1 provides that applications for mediation services be made on printed forms which may be secured from the National Mediation Board. This section of the regulations provides that applications should be submitted in duplicate, show the exact nature of the dispute, the number of employees involved, name of the carrier and name of the labor organization, date of agreement between the parties, date and copy of notice served by the invoking party to the other and date of final conference between the parties. The application should be signed by the highest officer of the carrier who has been designated to handle disputes under the Railway Labor Act or by the chief executive of the labor organization, whichever party files the application.

 The extension of this form is necessary considering the information provided by the parties is used by the Board to structure a mediation process that will be productive to the parties and result in a settlement without resort to strike or lockout. The Board has been very successful in resolving labor disputes in the railroad and airline industries. Historically, some 97 percent of all NMB mediation cases have been successfully resolved without interruptions to public service. Since 1980, only slightly more than 1 percent of cases have involved a disruption of service. This success ratio would possibly be reduced if the Board was unable to collect the brief information that it does in the application for mediation services.

 Requests for copies of the proposed information collection request may be accessed from www.nmb.gov or should be addressed to Denise Murdock, NMB, 1301 K Street NW., Suite 250 E, Washington, DC 20005 or addressed to the email address murdock@nmb.gov or faxed to 202–692–5081. Please specify the complete title of the information collection when making your request.

 SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

 The applications received are as follows:

 Permit Application: 2013–029
 1. Applicant Chi-Hing Christina Cheng, Department of Animal Biology, 515 Morrill Hall, University of Illinois, 505 S. Goodwin Avenue, Urbana, IL, 61801.

 Activity for Which Permit is Requested
 Enter Antarctic Specially Protected Areas. The applicant intends to enter ASPA 152-Western Bransfield Strait, and ASPA 153-Eastern Dallmann Bay to capture Antarctic fish by trawling and trapping. The project will study the antifreeze glycoprotein that is circulated in their circulatory space. For two of the species, D. mawsoni and C. aceratus, they will collect juveniles that will be sampled for obtaining sequences of genes expressed in young developmental stages. These will be added to sequences of adult D. mawsoni collected from McMurdo Sound, and adult C. aceratus that will be collected at the same time as the juveniles. The purpose is to have different ages represented in a comprehensive transcriptome of both species, for comparing to a basal non-Antarctic
notothenioid for the purpose of understanding how gene expression contributed to cold adaptation in Antarctic species.

East Dallmann Bay (ASPA 153) and Western Bransfield Strait around Low Island (ASPA 152) have historically been the locations that yield these target species.

Location
Antarctic Peninsula including ASPA 152-Western Bransfield Strait, and ASPA 153-Eastern Dallmann Bay.

Dates
July 1, 2013 to September 30, 2013.

RAILROAD RETIREMENT BOARD
Agency Forms Submitted for OMB Review, Request for Comments

Summary: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Railroad Retirement Board (RRB) is forwarding an Information Collection Request (ICR) to the Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget (OMB). Our ICR describes the information we seek to collect from the public. Review and approval by OIRA ensures that we impose appropriate paperwork burdens.

The RRB invites comments on the proposed collection of information to determine (1) the practical utility of the collection; (2) the accuracy of the estimated burden of the collection; (3) ways to enhance the quality, utility, and clarity of the information that is the subject of collection; and (4) ways to minimize the burden of collections on respondents, including the use of automated collection techniques or other forms of information technology. Comments to the RRB or OIRA must contain the OMB control number of the ICR. For proper consideration of your comments, it is best if the RRB and OIRA receive them within 30 days of the publication date.

Title and Purpose of information collection: Evidence of Marital Relationship, Living with Requirements; OMB 3220–0021.

To support an application for a spouse or widow(er)’s annuity under Sections 2(c) or 2(d) of the Railroad Retirement Act, an applicant must submit proof of a valid marriage to a railroad employee. In some cases, the existence of a marital relationship is not formalized by a civil or religious ceremony. In other cases, questions may arise about the legal termination of a prior marriage of the employee, spouse, or widow(er). In these instances, the RRB must secure additional information to resolve questionable marital relationships. The circumstances requiring an applicant to submit documentary evidence of marriage are prescribed in 20 CFR 219.30.

In the absence of documentary evidence, the RRB needs to determine if a valid marriage existed between a spouse or widow(er) annuity applicant and a railroad employee. The RRB utilizes Forms G–124, Individual Statement of Marital Relationship; G–124a, Certification of Marriage Information; G–237, Statement Regarding Marital Status; G–238, Statement of Residence; and G–238a, Statement Regarding Divorce or Annulment, to secure the needed information. One response is requested of each respondent. Completion is required to obtain benefits.

Previous Requests for Comments: The RRB has already published the initial 60-day notice (78 FR 3041 on January 15, 2013) required by 44 U.S.C.
