Drawbridge Operation Regulations; Pass Manchac, LA

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Canadian National (CN) Railroad automated bascule span drawbridge across Pass Manchac, mile 6.7, at Manchac, between St. John and Tangipahoa Parishes, Louisiana. The deviation is necessary to upgrade the electrical drive system and replace the seals on the gear drive unit that operates the bridge. This work is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists of small tugs with and without tows, commercial vessels, and recreational craft, including sailboats. Coordination between the Coast Guard and the waterway users determined that there should not be any significant effects on these vessels. The bridge will be unable to open during these repairs and no alternate route is available.

In accordance with 33 CFR 117.484, the bridge is not tended and is therefore automated. These operations are described in 33 CFR 117.484. Currently, the bridge remains open until the passage of a train at which time it closes to allow the train to pass. This deviation allows the bridge to remain closed to navigation from 8 a.m. until 2 p.m. on both Wednesday, April 10, 2013, and Thursday, April 11, 2013. At all other times, the bridge will operate in accordance with 33 CFR 117.484.
