This rule establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective March 28, 2013. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of March 28, 2013.

Box 25082, Oklahoma City, OK 73125) Telephone: (405) 954–4164.

**SUPPLEMENTARY INFORMATION:** This rule amends Title 14 of the Code of Federal Regulations, Part 97 (14 CFR part 97), by establishing, amending, suspending, or revoking SIAPs, Takeoff Minimums and/or ODPs. The complete regulators description of each SIAP and its associated Takeoff Minimums or ODP for an identified airport is listed on FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and 14 CFR 8260–15A, and 8260–15B when required by an entry on 8260–15A.

The large number of SIAPs, Takeoff Minimums and ODPs, in addition to their complex nature and the need for a special format make publication in the Federal Register expensive and impractical. Furthermore, airmen do not use the regulatory text of the SIAPs, Takeoff Minimums or ODPs, but instead refer to their depiction on charts printed by publishers of aeronautical materials. The advantages of incorporation by reference are realized and publication of the complete description of each SIAP, Takeoff Minimums and ODP listed on FAA forms is unnecessary. This amendment provides the affected CFR...
sections and specifies the types of SIAPs and the effective dates of the associated Takeoff Minimums and ODPs. This amendment also identifies the airport and its location, the procedure, and the amendment number.

The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP, Takeoff Minimums and ODP as contained in the transmittal. Some SIAP and Takeoff Minimums and textual ODP amendments may have been issued previously by the FAA in a Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP and Takeoff Minimums and ODP amendments may require making them effective in less than 30 days. For the remaining SIAPs and Takeoff Minimums and ODP amendments, an effective date of at least 30 days after publication is provided.

Further, the SIAPs and Takeoff Minimums and ODPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs and Takeoff Minimums and ODPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs, Takeoff Minimums and ODPs, and safety in air commerce, I find that notice and public procedures before adopting these SIAPs, Takeoff Minimums and ODPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Addition of Certain Persons to the Entity List; Removal of Person From the Entity List Based on Removal Request; Implementation of Entity List Annual Review Changes

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This rule amends the Export Administration Regulations (EAR) by adding eighteen persons to the Entity List (Supplement No. 4 to Part 744) under nineteen entries. These persons have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States on the basis of § 744.11 of the EAR. These persons will be listed on the Entity List under China, Germany, Hong Kong, Ukraine, and United Arab Emirates. This rule also revises one entry under Germany to clarify the scope of the entry by providing two additional alternate addresses for the listed person. This rule further removes one entry under Canada as the result of a successful removal request. Finally, this rule notifies the public that the End-User Review Committee (ERC) has completed Annual Reviews of Afghanistan, Greece, India, Russia, and Ukraine and that no changes are being made to the Entity List as a result of these reviews. The Entity List provides notice to the public that certain exports, reexports, and transfers (in-country) to entities identified on the Entity List require a license from the Bureau of Industry and Security (BIS) and that availability of license exceptions in such transactions is limited.

DATES: Effective Date: This rule is effective March 28, 2013.

FOR FURTHER INFORMATION CONTACT: Karen Nies-Vogel, Chair, End-User Review Committee, Office of the Assistant Secretary, Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482–5991, Fax: (202) 482–3911, Email: ERC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Entity List (Supplement No. 4 to Part 744) notifies the public about entities that have engaged in activities that could result in an increased risk of the diversion of exported, reexported, or transferred (in-country) items to weapons of mass destruction (WMD) programs. Since its initial publication, grounds for inclusion on the Entity List have expanded to include activities sanctioned by the State Department and activities deemed contrary to the United States’ national security or foreign policy interests, including terrorism-related activities and export control-related violations involving abuse of human rights. Certain exports, reexports, and transfers (in-country) to entities identified on the Entity List require licenses from BIS and are usually subject to a policy of denial. The availability of license exceptions in such transactions is very limited. The license review policy for each entity is identified in the License Review Policy column on the Entity List and the availability of license exceptions is published in the Federal Register notices adding persons to the Entity List. BIS places entities on the Entity List based on certain sections of part 744 (Control Policy: End-User and End-Use Based) of the EAR.

The ERC, composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and all decisions to remove or modify an entry by unanimous vote.

ERC Entity List Decisions

Additions to the Entity List

This rule implements the decision of the ERC to add eighteen persons under nineteen entries to the Entity List on the basis of § 744.11 (License requirements that apply to entities acting contrary to the national security or foreign policy interests of the United States) of the EAR. The eighteen persons under nineteen entries consist of two entities in China, one entity in Germany, four entities in Hong Kong, one entity in Ukraine and eleven entities in the United Arab Emirates (U.A.E.). The ERC reviewed § 744.11(b)(5) (Criteria for revising the Entity List) in making the determination to add these eighteen persons under nineteen entries to the Entity List. Under that paragraph, persons for whom there is reasonable cause to believe, based on specific and articulable facts, that the persons have been involved, are involved, or pose a significant risk of being or becoming involved in, activities that are contrary to the national security or foreign policy interests of the United States and those acting on behalf of such persons may be added to the Entity List. Paragraphs (b)(1)–(b)(5) of § 744.11 include an illustrative list of activities that could be contrary to the national security or foreign policy interests of the United States.

The eighteen persons under nineteen entries being added to the Entity List under this rule have been determined by the ERC to be involved in activities that are contrary to the national security or foreign policy interests of the United States. One of the persons being added to the Entity List under this rule, Ukrspetexport, is located in Ukraine. Ukrspetexport, Ukraine’s state-owned arms trader, exported military equipment to a country on the State Department’s State Sponsors of Terrorism List. Therefore, pursuant to § 744.11(b) of the EAR, the ERC determined that Ukrspetexport knowingly and willfully engaged in activities contrary to US national security and foreign policy interests.

The ERC has reasonable cause to believe that the one person being listed under Germany, Manufacturers Equipment Organization (MEO), a company headquartered in Germany, assisted other persons already listed on the Entity List, specifically Christof Schneider and Schneider GMBH, in transactions involving items subject to the EAR. Mr. Schneider and his company were listed on the Entity List in a Federal Register Notice published July 21, 2009 (74 FR 35797) as a result of a February 5, 2009 indictment stemming from unlawful attempted shipments to Iran of petrochemical equipment. The consignee on the recent transaction, in which MEO assisted Schneider, also had links to the Iranian petrochemical industry. Based on Schneider’s notorious activities, MEO’s participation with Schneider in the export of items subject to the EAR to Iranian interests has led the ERC to determine that MEO engaged in activities contrary to U.S. national security and foreign policy interests and poses a high risk of involvement in violations of the EAR.

The ERC also has reasonable cause to believe that eight of the persons being added under this rule, all listed under the U.A.E., Afsari General Trading LLC,
