

collection stage. Specifically, commenters expressed confusion about which option should be applied to charged-off accounts and how the Federal Reserve defines an account being in the collections stage. The Federal Reserve will revise the proposed selection options to be more specific.

Several commenters requested additional guidance regarding generating the information requested in the revised Customer ID item and the proposed new Co-borrower ID, Corporate ID and Trade Key items, because they are to be populated "using the algorithm provided by the Federal Reserve Board or its agent." After consideration of the new definitions, the Federal Reserve believes that such an algorithm is unnecessary and will revert to the existing definition of Customer ID and remove Co-Borrower ID and Trade Key from the final schedule. Questions related to generating the Corporate ID would be directed to the Federal Reserve's data aggregator.

Several commenters stated that they do not store census tract information in their internal data management systems. Therefore, the Federal Reserve will remove data items for Account Billing Address—Census Tract, Account Billing Address—Street Address, and Account Billing Address—City.

Several commenters suggested adding a third response of "Other" to the proposed data item Updated Income Source to account for sources that do not qualify as "Household" or "Individual." The Federal Reserve will add a third response of "Other."

Several commenters requested clarification regarding what to report if one Annual Percentage Rate (APR) is to be reported but several APRs existed in the reporting period. The Federal Reserve will clarify the instructions to state that firms should report a weighted average of APRs throughout the reporting period.

C. FR Y-14M First Lien Closed-End 1-4 Family Residential Loan Schedule

In the December 20th proposal, the Federal Reserve proposed adding 40 new data items to the loan-level table of the First Lien schedule. Additionally, the Federal Reserve proposed removing three existing data items from the same table. After consideration of comments and reporting burden, the Federal Reserve will revise the final schedule adding 36 of the proposed new data items to the loan-level table and removing 2 existing data items. With respect to the final list of proposed items, the Federal Reserve did not receive substantive comments on most of the proposed items. Most of the

comments received required only clarification to definitions, which will be provided in the final instructions.

The Federal Reserve proposed to eliminate the Home Affordable Refinance Flag item, because it had appeared, based on a preliminary analysis, that the information reflected in this data item could be derived from other data items. However, after further consideration and analysis, the Federal Reserve has determined that the information reflected in the Home Affordable Refinance Flag data item cannot be derived from other data items. In addition, several commenters suggested that the Federal Reserve work with other agencies to better align the FR Y-14M schedules with data collections by other agencies in order to reduce the burden on reporters. Retaining the Home Affordable Refinance Flag would facilitate greater consistency with other agencies' data collections and, accordingly, retaining this item may reduce the burden on FR Y-14M reporters. Therefore the Federal Reserve will retain the Home Affordable Refinance Flag data item in the final schedule.

One commenter suggested that the data item Product Type should include an option for 10 year fixed-rate loans. The Federal Reserve has observed many instances of 10 year fixed-rate loans and will add an option for such loans.

Similarly to the Credit Card schedule, several commenters requested additional guidance regarding the Customer ID and the Co-borrower ID items. After consideration of comments and additional burden to reporters of these proposed items, the Federal Reserve will remove the items Co-Borrower ID and Customer ID. In an effort to additionally minimize reporting burden, the proposed items Prepayment Penalty Waived This Month and Reason for Default will also be eliminated.

D. FR Y-14M Domestic Home Equity Loan and Home Equity Line Schedule

The Federal Reserve proposed adding 27 new data items to the Loan/Line Level Table and 1 new data item to the Portfolio Level Table. Additionally, the Federal Reserve proposed to delete 1 existing data item from the Loan/Line Level Table. After consideration of comments and reporting burden, the final schedule will add 25 and eliminate 1 of the proposed new data items and eliminate 1 existing data item from the Loan/Line Level Table. Most of the comments received required only clarification to definitions, which will be provided in the final instructions.

Similarly to the First Lien schedule, several commenters requested

additional guidance regarding the Customer ID and the Co-borrower ID items. After consideration of comments and additional burden to reporters of these proposed items, the Federal Reserve will remove the items Co-Borrower ID and Customer ID. In an effort to additionally minimize reporting burden, the proposed items Escrow Amount at Origination and Remodified Flag will also be eliminated as well as the existing item Escrow Amount Current.
