ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2005-0161; FRL 9529-8]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Renewable Fuels Standard Program (RFS2—Supplemental) (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), “Renewable Fuels Standard Program (RFS2—Supplemental)” (EPA ICR No. 2380.02, OMB Control No. 2060-0637) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through March 31, 2013. Public comments were previously requested via the **Federal Register** (77 FR 69620) on November 20, 2012 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 29, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2005-0161, to (1) EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Geanetta Heard, Fuels Compliance Center, 6406J Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone

number: 202-343-9017 fax number: 202-343-2800; email address: heard.geanetta@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: EPA will continue to collect annual reports, initial registrations and updates by way of the Agency’s CDX and petitions for renewable fuels pathways from the regulated renewable fuels industry. The recordkeeping and reporting of this regulation will allow EPA to monitor compliance with the RFS program. We inform respondents that they may assert claims of business confidentiality (CBI) for information they submit in accordance with 40 CFR Part 2.

Forms: All of the forms associated with this ICR may be found in the associated docket (Docket ID EPA-HQ-OAR-2005-0161).

Respondents/affected entities: Producers of Renewable Fuels, Importers, Obligated Parties, Parties who own renewable identification numbers (RINs), including foreign RIN owners

Respondent’s obligation to respond: Mandatory under the Clean Air Act, Sections 114 and 208, 42 U.S.C. 7414 and 7542.

Estimated number of respondents: 1192.

Frequency of response: Annually.

Total estimated burden: 15,707 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$ 3,039,221 (per year) in labor costs. There are no capital or O&M costs.

Changes in the Estimates: There is a sharp decrease of 43,026 hours in the total estimated respondent burden compared to the ICR currently approved by OMB. This decrease was caused by members in the obligated parties once registered not being required to re-register their companies in this renewal. New registrations are required if a company acquires another or when a new company enters into a party. The requirements of the current members in the party classes are to submit updates and corrections to their current registration when needed in CDX. The

RFS industry will submit petitions for renewable fuel pathways to seek approval. The number in the respondent universe will decrease in all categories for the parties thus lessening the reporting burden for its members.

John Moses,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

Safe Drinking Water Act Sole Source Aquifer Program; Designation of Bainbridge Island, Washington as a Sole Source Aquifer

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final determination.

SUMMARY: Notice is hereby given that pursuant to Section 1424(e) of the Safe Drinking Water Act, the Administrator of the U.S. Environmental Protection Agency (EPA) has determined that the Bainbridge Island Aquifer System located in Kitsap County, Washington is the sole or principle source of drinking water for the citizens of Bainbridge Island and that this aquifer system, if contaminated would create a significant hazard to public health. As a result of this action, all Federal financially assisted projects constructed on Bainbridge Island will be subject to EPA review to ensure that these projects are designed and constructed so they do not

create a significant hazard to public health.

DATES: This determination shall be effective on March 29, 2013.

ADDRESSES: All documents relating to this determination are available for inspection by the public during normal business hours at the U.S. EPA Library, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101 between the hours of 9:00 a.m.-12:00 p.m. and 1:00-4:00 p.m. and at the Bainbridge Island library at 1270 Madison Avenue North, Bainbridge Island.

FOR FURTHER INFORMATION CONTACT: Susan Eastman, EPA Region 10, Drinking Water Unit, by mail at the Seattle address given above, by telephone at (206) 553-6249, or by email at Eastman.susan@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Section 1424(e) of the Safe Drinking Water Act (42 U.S.C. 300h3(e), Public Law 93-523 of December 16, 1974) states:

If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, could create a significant hazard to public health, he shall publish a notice of the determination in the **Federal Register**. After the publication of any such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer.

On August 5, 2009, EPA received a petition from two citizens of Bainbridge Island requesting designation of the Bainbridge Island Aquifer System as a Sole Source Aquifer (SSA). On April 20, 2012, EPA published a notice in the *Bainbridge Islander* newspaper and mailed fact sheets to island residents which served to announce the public comment period. The public was permitted to submit comments and information on the petition from April 20 through June 4, 2012. Public comments received by EPA were generally in support of the designation.

II. Basis for Determination

EPA defines a sole or principle source aquifer as an aquifer or aquifer system which supplies at least 50 percent of the drinking water consumed in the area overlying the aquifer, and for which
