Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Neuroscience Center, 6001 Executive Boulevard, Rockville, MD 20852, (Telephone Conference Call).

Contact Person: Minna Liang, Ph.D., Scientific Review Officer, Grants Review Branch, Office of Extramural Affairs, National Institute on Drug Abuse, NIH, DHHS, 6001 Executive Blvd., Room 4226, MSC 9550, Bethesda, MD 20892–9550, 301–435–1432, liangm@nih.gov.

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.

(Catalogue of Federal Domestic Assistance Program Nos.: 93.279, Drug Abuse and Addiction Research Programs, National Institutes of Health, HHHS)

Dated: March 26, 2013.

Lyle Furr, Contract Review Specialist, Office of Extramural Affairs, National Institute on Drug Abuse, NIH, DHHS, 6001 Executive Blvd., Room 4226, MSC 9550, Bethesda, MD 20892–9550, 301–435–1432, liangm@nih.gov.

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**National Institutes of Health**

**National Institute on Drug Abuse; Notice of Closed Meeting**

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 USC, as amended. The contract proposals and the discussions could disclose confidential trade secrets or commercial property such as patentable materials, and personal information concerning individuals associated with the contract proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

**Name of Committee:** National Institute on Drug Abuse Special Emphasis Panel; Profile Screening and Predictive Toxicology (8909).

**Date:** April 29, 2013.

**Time:** 10:00 a.m. to 12:00 p.m.

**Agenda:** To review and evaluate contract proposals.

**Place:** National Institutes of Health, Neuroscience Center, 6001 Executive Boulevard, Rockville, MD 20852, (Telephone Conference Call).

**Contact Person:** Lyle Furr, Contract Review Specialist, Office of Extramural Affairs, National Institute on Drug Abuse, NIH, DHHS, Room 4227, MSC 9550, 6001 Executive Boulevard, Bethesda, MD 20892–9550, (301) 435–1439, fj33c@nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos.: 93.279, Drug Abuse and Addiction Research Programs, National Institutes of Health, HHHS)

Dated: March 26, 2013.

Barbour P., Contract Specialist, Office of Federal Advisory Committee Policy.

**Request for Information: The National Toxicology Program Requests Information On Assays and Approaches Useful for Screening Compounds for Potential Neurotoxicity**

**SUMMARY:** The National Toxicology Program (NTP) requests information on medium- or high-throughput technologies/assay systems, which allow for the batch screening of compounds (e.g., 25–50) in biochemical- or cell-based assays or alternative (non-rodent) animal models, that might be used to prioritize compounds for in vivo neurotoxicity testing.

**DATES:** The deadline for receipt of information is May 1, 2013.

**ADDRESSES:** Information may be submitted electronically or as printed copy.

Electronic submissions: Email to barbourp@niehs.nih.gov.

Print submissions: Send 4 copies to Patrick J. Barbour, Contract Specialist, National Institute of Environmental Health Sciences (NIEHS), P.O. Box 12233 (MD K1–05), Research Triangle Park, NC 27709. Courier address: 530 Davis Drive, Keystone Building, Room 1059, Morrisville, NC 27560.

**FOR FURTHER INFORMATION CONTACT:**

Patrick J. Barbour, Contract Specialist, NIEHS, P.O. Box 12233 (MD K1–05), Research Triangle Park, NC 27709. Courier address: 530 Davis Drive, Keystone Building, Room 1059, Morrisville, NC 27560. Email: barbourp@niehs.nih.gov.

**SUPPLEMENTARY INFORMATION:**

**Background:**

For the purposes of this request for information (RFI), neurotoxicity means adverse outcomes to the nervous system resulting from exposure during any life stage. Special emphasis is placed on identifying assay systems that interrogate cellular and molecular events that are critical to the development and/or function of the nervous system. The NTP is also interested in receiving...
