

requirements in the Act is a directive for the NOAA Administrator to establish the U.S. IOOS Advisory Committee, a federal advisory committee. The Committee provides advice as may be requested by the NOAA Administrator or the Interagency Ocean Observing Committee (IOOC). The Committee was officially established in August 2012.

Specific areas on which the Committee is to provide advice are: administration, operation, management, and maintenance of IOOS, including integration of Federal and non-Federal assets and data management and communication aspects of IOOS, and fulfillment of the purposes set forth in section 12302 of the IOOS Act; expansion and periodic modernization and upgrade of technology components of IOOS; identification of end-user communities, their needs for information provided by IOOS, and the IOOS's effectiveness in disseminating information to end-user communities and the general public; and any other purpose identified by the NOAA Administrator or the IOOC.

The Committee is composed of members appointed by the NOAA Administrator. Members are qualified by education, training, and experience to evaluate scientific and technical information related to the design, operation, maintenance, or use of IOOS, or use of data products provided through IOOS. Members are appointed for 3-year terms, renewable once.

The Committee meets at least once each year, and at other times at the call of the NOAA Administrator, the IOOC, or the chairperson.

Dated: March 20, 2013.

### SUPPLEMENTARY INFORMATION:

#### Summary of Information Collection

USMEPCOM, with headquarters in North Chicago, Ill., is a joint service command staffed with civilians and military from all five branches of service. The command, through its network of 65 Military Entrance Processing Stations, determines whether applicants are qualified for enlistment based on standards set by each of the services. USMEPCOM Regulation 601-23, *Enlistment Processing*, directs the information collection requirement for all 65 Military Entrance Processing Stations (MEPS) to obtain timely feedback on MEPS core processes. This web-based tool will allow MEPS to efficiently administer voluntary surveys on a routine basis to their primary
