SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) seeks to launch "MyUSPTO," an optional customer portal that will serve as a central point for access to online system interfaces and submission of information to the USPTO. Customers will have the opportunity to create online accounts through USPTO.gov that will collect information for a variety of programmatic purposes. MyUSPTO will initially serve as an authoritative source for customer contact and correspondence information (such as current addresses, official email addresses, and telephone numbers) and will eventually allow customers to create a portfolio of information that can be retained and used for other business transactions with the USPTO. In the future, MyUSPTO will also provide a

unified interface with convenient access to other USPTO systems, such as electronic fee payments.

With MyUSPTO, the agency seeks to establish the option for customers to obtain a single login that can be used to access USPTO's online systems, reducing the need to maintain multiple user names for different activities or re-enter information such as correspondence addresses for every authorized transaction.

Guidance from the Office of Management and Budget (OMB) memorandum "Social Media, Web-Based Interactive Technologies, and the Paperwork Reduction Act" dated April 7, 2010, states that self-identifying information for the creation of user accounts or profiles is not subject to the Paperwork Reduction Act (PRA) under certain conditions. However, the PRA does apply "when agencies use online accounts to collect information for programmatic purposes." Since the customer accounts will provide an option for users to submit information for programmatic purposes, the USPTO is seeking approval to collect this information under the PRA. This new collection is expected to enhance but not influence any existing or future information requirements for business before the Office.
