

Superior Suppliers without significant risk to the Government?

4. Energy Efficiency is a critical DoN requirement significantly impacting the successful achievement of DoN's missions. How should a contractor's use of energy as it relates to the entire life-cycle of a product—design, manufacture, use, maintenance, and disposal—be considered in the designation of Superior Suppliers?

5. How long should SSS last?

6. What criteria, other than CPARS data elements, should DoN use to select companies for evaluation as superior suppliers?

7. Is there any other aspect of the proposed SSIP on which you wish to comment?

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Private School Universe Survey 2013-16.

OMB Control Number: 1850-0641.

Type of Review: Revision of an existing collection of information.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 25,567.

Total Estimated Number of Annual Burden Hours: 6,410.

Abstract: The Private School Universe Survey (PSS) is the NCES collection of basic data from the universe of private elementary and secondary schools in the United States. The PSS is designed to gather biennial data on the total number of private schools, teachers, and students, along with a variety of related data, including: religious orientation; grade-levels taught and size of school; length of school year and of school day; total student enrollment by gender (K-12); number of high school graduates; whether a school is single-sexed or coeducational; number of teachers

employed; program emphasis; and existence and type of its kindergarten program. The PSS includes all schools that are not supported primarily by public funds, that provide classroom instruction for one or more of grades K-12 or comparable ungraded levels, and that have one or more teachers. The PSS is also used to create a universe list of private schools that can be used as a sampling frame for NCES surveys of private schools. No substantive changes have been made to the survey or its procedures since its last approved PSS 2010-13. This clearance is for the 2013-14 and 2015-16 PSS data collections, and the 2015-16 PSS list- and area-frame building operations.

Dated: April 3, 2013.
