

112–239, January 2, 2013). The revised statute simplifies the funding formula, and therefore decreases the data collection burden for Section 8002 applicants, with the goal of enabling the Department to make payments to LEAs more quickly. However, because the statutory change is retroactive to include payments for FY 2010, the Impact Aid Program (IAP) must recalculate its payments to all eligible LEAs for FYs 2010–2013. The applications previously submitted for those fiscal years' funds contain only part of the data required under the new formula. In order to collect the new data required by the formula, IAP requests approval of revised versions of Tables 3 and 4 of the application. For the FY 2014 grant application, LEAs have not yet submitted applications, thus IAP must collect all data needed under the new formula with a revised application package. The FY 2014 application package requires fewer data elements overall than the previous application.
