

crash studies. These marking requirements will also provide the public with beneficial information that could also assist in identifying carriers for the purposes of commerce, complaints or emergency notification. The marking requirements apply to motor carriers, freight forwarders and intermodal equipment providers (IEPs) engaging in interstate transportation. The Agency does not require a specific method of marking as long as the marking complies with FMCSA's regulations.

Title: Marking of Self-Propelled CMVs and Intermodal Equipment.

OMB Control Number: 2126-XXXX.

Type of Request: New collection.

Respondents: Freight carrying commercial motor carriers, Passenger carrying commercial motor carriers, and intermodal equipment providers.

Estimated Number of Respondents: 191,000.

Estimated Time per Response: 26 minutes [12 minutes to affix DOT Number + 14 minutes for affixing a carrier's name = 26].

Expiration Date: N/A.

Frequency of Response: On occasion.

Estimated Total Annual Burden Hours: 655,000 [620,000 hours for freight carrying commercial carriers + 26,000 hours for passenger carrying commercial motor carriers + 9,000 hours for intermodal equipment providers (IEPs) = 655,000].

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB's clearance of this information collection.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2013-0019]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated February 21, 2013, the Old Augusta Railroad (OAR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal hours of service laws contained at 49 U.S.C. 21103(a)(4). FRA assigned the petition Docket Number FRA-2013-0019.

In its petition, OAR seeks relief from 49 U.S.C. 21103(a)(4), which, in part, requires a train employee to receive 48 hours off-duty after initiating an on-duty period for 6 consecutive days. Specifically, OAR seeks a waiver to allow a train employee to initiate an on-duty period each day for 7 consecutive days followed by 1 day off duty and an 8th day assignment with 2 days off duty. In support of its request, OAR submitted documents demonstrating its employees' support for the requested waiver and a description of its employees' work schedules. According to OAR, train employees have set start times and set off-duty days, and do not lay over at away-from-home terminals. Additionally, OAR claims that it operates one switching job per day, serving only one industry in a 12-hour cycle. The typical duty tour is from 5 a.m. to 5 p.m., 7 days per week, with an occasional switching move outside of the regular shift. Two crews share the 7-day-per-week schedule. OAR also states that before the Rail Safety Improvement Act of 2008, its employees worked 7 days on, 7 days off, subject to an infrequent call. OAR asserts that its employees worked this type of schedule for 18 years without any safety problems, and that it was awarded the American Short Line and Regional Railroad Association Jake Award each year during those 18 years.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or

comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2012-0097]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that R. J. Corman Railroad Company (RJCC) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain

provisions of the Federal railroad safety regulations contained at 49 CFR part 230, Steam Locomotive Inspection and Maintenance Standards. FRA assigned the petition Docket Number FRA-2012-0097.

RJCC is a railroad company based in Nicholasville, KY, that primarily operates freight railroads in five states. RJCC operates one steam locomotive, RJCC 2008, several times a year in the spring and fall on its Central Kentucky Line. RJCC 2008 is a 2-10-2 steam locomotive that was built in China in 1986. The boiler and the running gear were rebuilt in China and received a 1472 service-day inspection, pursuant to 49 CFR 230.17, prior to entering service in the United States on March 14, 2008. Since then, RJCC 2008 has operated 37 days in service and has undergone four annual inspections. RJCC plans to operate RJCC-2008 for 4 or 5 service days in 2013.

RJCC requests relief from 49 CFR 230.16(a)(2) with respect to flexible staybolt and cap inspection and 49 CFR 230.41, *Flexible staybolts with caps*. RJCC requests that 2.5 years be added to the prescribed 5-year period to perform the flexible staybolt inspection, thereby allowing 2,760 calendar days from the date that RJCC put RJCC 2008 into service. The flexible staybolts were installed in the boiler with caps welded to the staybolt cups, which were also welded to the boiler. The inspection process would involve torching off each cap, causing possible damage to each cup, thereby requiring replacement. There are in excess of 1,200 flexible staybolts installed on the boiler of RJCC 2008. RJCC will perform the annual inspection pursuant to 49 CFR 230.16. Granting the waiver would allow RJCC 2008 to receive an annual inspection without the added burden of removing the locomotive cab, boiler jacketing, and attendant insulation, which is required for the flexible staybolt inspection.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires

an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by May 28, 2013 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.).
