SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; Chicago Stock Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Adopt and Amend Exchange Rules in Connection With Limit Up-Limit Down Plan

April 5, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”) and Rule 19b–4 thereunder, notice is hereby given that on March 28, 2013, the Chicago Stock Exchange, Inc. (the “CHX” or “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

CHX proposes to amend Article 20, Rule 2 and to adopt Article 20, Rule 2A to implement the Limit Up-Limit Down requirements as detailed in the Regulation NMS Plan to Address Extraordinary Market Volatility (the “Limit Up-Limit Down Plan,” “LULD Plan,” or the “Plan”), which was submitted to and approved, on a one-year pilot basis, by the Securities and Exchange Commission (the “Commission”) pursuant to Rule 608 of Regulation NMS under the Act. The Exchange also proposes to amend Article 1, Rule 2; Article 20, Rule 4; and Article 20, Rule 8 to comport the CHX Only Price Sliding Processes with the proposed LULD Price Sliding functionality and to amend Article 16, Rule 8 and Article 20, Rule 10 to update various citations affected by the proposed rule change. Among other things, proposed Rule 2A will gradually phase out the current single-stock circuit breaker under CHX Article 20, Rule (d) and (e), which will be modified and incorporated as proposed Article 20, Rule 2A(c)(1) and (b)(2), as discussed below.

Since May 6, 2010, when the markets experienced excessive volatility in an abbreviated time period (i.e., the “flash crash”), the Securities and Exchange Commission (the “Commission”) has been focused on reducing single-stock circuit breakers. In this regard, the Commission has adopted the Limit Up-Limit Down Plan to allow the markets to continue operating while providing more time for traders to react to extraordinary market conditions. The proposed rule change is consistent with the purposes of the Act.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CHX included statements concerning the purpose of and basis for the proposed rule changes and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CHX has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Article 20, Rule 2 and adopt Article 20, Rule 2A (“Limit Up-Limit Down Plan and Trading Pauses in Individual Securities Due to Extraordinary Market Volatility”) to implement the Limit Up-Limit Down Plan, as approved by the Commission on a one-year pilot basis. Moreover, the Exchange proposes to amend Article 1, Rule 2; Article 20, Rule 4; and Article 20, Rule 8 to comport the CHX Only Price Sliding Processes with the proposed LULD Price Sliding functionality and to amend Article 16, Rule 8 and Article 20, Rule 10 to update various citations affected by the proposed rule change. Among other things, proposed Rule 2A will gradually phase out the current single-stock circuit breaker under CHX Article 20, Rule (d) and (e), which will be modified and incorporated as proposed Article 20, Rule 2A(c)(1) and (b)(2), as discussed below.

Since May 6, 2010, when the markets experienced excessive volatility in an abbreviated time period (i.e., the “flash crash”), the Securities and Exchange Commission (the “Commission”) has been focused on reducing single-stock circuit breakers. In this regard, the Commission has adopted the Limit Up-Limit Down Plan to allow the markets to continue operating while providing more time for traders to react to extraordinary market conditions.
