

- *Southern Caballo Mountains ACEC* (Not currently an ACEC; Alternative B would designate 24,117 acres as an ACEC; the area would not be managed as an ACEC under Alternatives C and D.) The ACEC would be managed for cultural resource values. Proposed resource-use limitations include: Exclusion of new rights-of-way; closure to geothermal leasing; management as VRM Class II; and limitation of vehicle use to designated routes.

- *Three Rivers Petroglyph Site ACEC* (Currently 1,043 acres; Alternatives B, C, and D would maintain this acreage.) This ACEC would be managed for cultural resource values. Proposed resource-use limitations include: Closure to fluid mineral leasing and mineral material sales; closure to vegetation sales; management as VRM Class II; and limitation of vehicle use to designated routes.

- *Tortugas Mountain ACEC* (Not currently an ACEC; Alternative B would designate 1,936 acres as an ACEC; the area would not be managed as an ACEC under Alternatives C and D.) The ACEC would be managed for soils and geomorphology resource values. Proposed resource-use limitations include: Exclusion of new rights-of-way; closure to geothermal leasing; management as VRM Class III; allowing traditional uses, religious and other, of the mountain; and limitation of vehicle use to designated routes.

- *Tularosa Creek ACEC* (Not currently an ACEC; Alternatives B and C would designate 236 acres as an ACEC; the area would not be managed as an ACEC under Alternative D.) The ACEC would be managed for riparian and aquatic resource values. Proposed resource-use limitations include: Exclusion of new rights-of-way; closing to mineral material sales and geothermal leasing; closure to livestock grazing; management as VRM Class II; and limitation of vehicle use to designated routes.

- *Wind Mountain ACEC* (Currently 2,300 acres; Alternatives B and C would manage the area as part of the Otero Mesa Grassland Wildlife ACEC; Alternative D would maintain the current acreage.) This ACEC would be managed for cultural and scenic resource values. Proposed resource-use limitations include: Exclusion or avoidance of new rights-of-way; closure to fluid mineral leasing and mineral material sales; closure to vegetation sales; management as VRM Class I or II; and limitation of vehicle use to designated routes.

The land-use planning process was initiated on January 28, 2005, through a Notice of Intent published in the

Federal Register (70 FR 4146), notifying the public of a formal scoping period and soliciting public participation. Four public scoping meetings were held in March 2005 in Alamogordo, Anthony, Las Cruces, and Truth or Consequences, NM. In April 2005, the Economic Profile System workshops were held in Alamogordo and Truth or Consequences to help the BLM and potential cooperating agencies gain insight on the economic makeup of the Planning Area. Three open-house scoping meetings were held in December 2006 in Las Cruces, Alamogordo, and Truth or Consequences, NM. Four meetings with grazing allottees were held in January 2007 to discuss the RMP process and potential impacts of ACEC management on grazing operations. Between 2005 and 2010, four Planning Bulletins were published to update the community on the RMP progress. Meetings and outreach to cooperating agencies were held throughout the planning process, as were meetings with various stakeholder groups. At the November 2011 meeting of the Las Cruces District Resource Advisory Council, the Tri-County RMP status was discussed.

Las Cruces District Office managers and staff had discussions about the Tri-County Draft RMP/Draft EIS with 11 Native American tribal groups, including the Mescalero Apache Tribe, the Fort Sill Apache Tribe, the White Mountain Apache Tribe, the Ysleta del Sur Pueblo, the Isleta Pueblo, the Hopi Tribe, the Navajo Nation, the Kiowa Tribe, the Comanche Indian Tribe, Tesuque Pueblo, and the Piro-Manso-Tiwa Indian Tribe. During the scoping period ending on March 28, 2005, the public provided the Las Cruces District Office with input on relevant issues to consider in the planning process. Based on these issues, conflicts, information, and the BLM's goals and objectives, the Las Cruces District Office Interdisciplinary RMP Team and managers formulated four alternatives for consideration and analysis in the Draft RMP/Draft EIS.

Following the close of the public review and comment period, any substantive public comments will be used to revise the Draft RMP/Draft EIS in preparation for its release to the public as the Proposed Resource Management Plan and Final Environmental Impact Statement (Proposed RMP/Final EIS). The BLM will respond to each substantive comment received during the public review and comment period by making appropriate revisions to the document, or explaining why the comment did not warrant a change. Notice of the availability of the Proposed RMP/Final

EIS will be posted in the **Federal Register**.

Please note that public comments and information submitted—including names, street addresses, and email addresses of persons who submit comments—will be available for public review and disclosure at the BLM Las Cruces District Office, 1800 Marquess St., Las Cruces, New Mexico during regular business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday (except holidays).

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1506.6; 40 CFR 1506.10; 43 CFR 1610.2.

Jesse J. Juen,

New Mexico State Director.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLID9570000.LL14200000.BJ0000]

Idaho: Filing of Plats of Survey

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Filing of Plats of Surveys.

SUMMARY: The Bureau of Land Management (BLM) has officially filed the plats of survey of the lands described below in the BLM Idaho State Office, Boise, Idaho, effective 9:00 a.m., on the dates specified.

FOR FURTHER INFORMATION CONTACT: Bureau of Land Management, 1387 South Vinnell Way, Boise, Idaho 83709-1657.

SUPPLEMENTARY INFORMATION: These surveys were executed at the request of the Bureau of Land Management to meet their administrative needs. The lands surveyed are:

The plat representing the dependent resurvey of portions of the subdivisional lines and certain mineral surveys, T. 49 N., R. 5 E., Boise Meridian, Idaho, Group Number 1356, was accepted January 5, 2013.

The supplemental plat prepared to correct the ownership status of McRea

Island, as depicted on the plat accepted October 28, 2011, T. 11 N., R. 6 W., Boise Meridian, Idaho, Group Number 1314 was accepted February 20, 2013.

The plat representing the dependent resurvey of portions of the north boundary, subdivisional lines and original 1904–1906 right bank meanders of the Salmon River in section 2, the subdivision of section 2, the survey of a portion of the 2011 right bank meanders of the Salmon River in section 2, the metes-and-bounds survey of a portion of the easterly right-of-way of U.S. Highway No. 95 in section 2, and the survey of lots 11, 12, and 13, in section 2, T. 24 N., R. 1 E., Boise Meridian, Idaho, Group Number 1345 was accepted March 7, 2013.

This survey was executed at the request of the U.S.D.A. Natural Resource Conservation Service to meet their administrative needs. The lands surveyed are:

The plat constituting the dependent resurvey of a portion of the Boise Base Line (south boundary) and subdivisional lines, and the subdivision of section 34, T. 1 N., R. 21 E., Boise Meridian, Idaho, and the plat constituting the dependent resurvey of a portion of the subdivisional lines, and the subdivision of sections 3 and 10, T. 1 S., R. 21 E., Boise Meridian, Idaho, Group Number 1374, were accepted February 5, 2013.

Dated: April 5, 2013.

Stanley G. French,

Chief Cadastral Surveyor for Idaho.

BILLING CODE 4310–GG–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

Gulf of Mexico (GOM), Outer Continental Shelf (OCS), Western Planning Area (WPA) Lease Sale 233 and Central Planning Area (CPA) Lease Sale 231, Oil and Gas Lease Sales MMAA104000

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of Availability (NOA) of the Final Supplemental Environmental Impact Statement (EIS).

Authority: This NOA is published pursuant to the regulations (40 CFR 1503) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 et seq. (1988)).

SUMMARY: BOEM has prepared a Final Supplemental EIS on oil and gas lease sales, including sales tentatively scheduled in 2013 and 2014 in the WPA

and CPA offshore the States of Texas, Louisiana, Mississippi, and Alabama. This Final Supplemental EIS updates the environmental and socioeconomic analyses evaluated in the Gulf of Mexico OCS Oil and Gas *Lease Sales: 2012–2017; Western Planning Area Lease Sales 229, 233, 238, 246, and 248; Central Planning Area Lease Sales 227, 231, 235, 241, and 247—Final Environmental Impact Statement* (OCS EIS/EA BOEM 2012–019) (2012–2017 Multisale EIS), completed in July 2012, in advance of proposed WPA Lease Sale 233 and proposed CPA Lease Sale 231.

SUPPLEMENTARY INFORMATION: BOEM developed this Final Supplemental EIS in advance of proposed WPA Lease Sale 233 and proposed CPA Lease Sale 231 to consider new information made available since completion of the 2012–2017 Multisale EIS and to consider new information available regarding the *Deepwater Horizon* explosion, oil spill, and cleanup; surveys of scientific journals and available scientific data and information from academic institutions and Federal, State, and local agencies. This Final Supplemental EIS provides updates on the baseline conditions and potential environmental effects of oil and natural gas leasing, exploration, development, and production in the WPA and CPA. BOEM conducted an extensive search for new information, including but not limited to information related to the *Deepwater Horizon* explosion, oil spill, and cleanup. Subject-matter experts surveyed scientific journals and available scientific data, gathered information, and interviewed personnel from academic institutions and Federal, State, and local agencies. BOEM has examined the potential impacts of routine activities and accidental events, including a possible low-probability, catastrophic event associated with a proposed lease sale, and the incremental contribution of a proposed lease sale to the cumulative impacts on environmental and socioeconomic resources. The oil and gas resource estimates and scenario information for this Final Supplemental EIS are presented as a range that would encompass the resources and activities estimated for a WPA and CPA proposed lease sale.

Final Supplemental EIS Availability: BOEM has printed and will distribute a limited number of paper copies of the EIS. In keeping with the Department of the Interior's mission to protect natural resources and to limit costs while ensuring availability of the document to the public, BOEM will primarily distribute digital copies of this Final

Supplemental EIS on compact discs. However, if you require a paper copy, BOEM will provide one upon request if copies are still available.

1. You may obtain a copy of the Final Supplemental EIS from the Bureau of Ocean Energy Management, Gulf of Mexico OCS Region, Public Information Office (GM 250G), 1201 Elmwood Park Boulevard, Room 250, New Orleans, Louisiana 70123–2394 (1–800–200–GULF).

2. You may download or view the Final Supplemental EIS on BOEM's Internet Web site at <http://www.boem.gov/Environmental-Stewardship/Environmental-Assessment/NEPA/nepaprocess.aspx>.

BOEM has sent copies of the Final Supplemental EIS to several libraries along the Gulf Coast. To find out which libraries have copies of the Final Supplemental EIS for review, you may contact BOEM's Public Information Office or visit BOEM's Internet Web site at <http://www.boem.gov/Environmental-Stewardship/Environmental-Assessment/NEPA/nepaprocess.aspx>.

FOR FURTHER INFORMATION CONTACT: For more information on the Final Supplemental EIS, you may contact Mr. Gary D. Goeke, Bureau of Ocean Energy Management, Gulf of Mexico OCS Region, Office of Environment (GM 623E), 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123–2394 or by email at LS_233–231SEIS@boem.gov. You may also contact Mr. Goeke by telephone at (504) 736–3233.

Dated: April 9, 2013.

Tommy P. Beaudreau,

Director, Bureau of Ocean Energy Management.
