

which they are not required to quote, which may increase liquidity in their appointed classes.¹⁶

The Exchange's proposal to exclude Intra-day Adds from Market-Makers' continuous electronic quoting obligations on the day during which such series are added for trading would not affect Market-Makers' other obligations. For example, Market-Makers will still be required to engage in activities that constitute a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, including (1) to compete with other Market-Makers to improve markets in all series of options classes comprising their appointments; (2) to make markets that, absent changed market conditions, will be honored in accordance with firm quote rules; and (3) to update market quotations in response to changed market conditions in their appointed options classes and to assure that any market quote they cause to be disseminated is accurate.¹⁷ In addition, the proposed rule change would not excuse a Market-Maker from its obligation to submit a single quote or to maintain continuous quotes in one or more series of a class to which the Market-Maker is appointed when called upon by an Exchange official if, in the judgment of such official, it is necessary to do so in the interest of maintaining a fair and orderly market.¹⁸

The Commission notes that the Exchange indicates that Market-Makers would be required to shut down and restart their systems, or make costly systems changes, in order to quote in Intra-day Adds. A requirement for Market-Makers to maintain continuous electronic quotes in Intra-day Adds, which represents a minor part of Market-Makers' overall obligations, may not justify the system resources, or the disruption to trading, the Exchange states would be necessary to accommodate quoting in Intra-day Adds. Accordingly, the Commission believes that the Exchange's proposal concerning Intra-day Adds would remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁹ that the proposed rule change (SR-C2-2013-

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.

- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of proposed collection: The U.S. President's Emergency Plan for AIDS Relief (PEPFAR) was established through enactment of the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (Pub. L. 108-25), as amended by the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008 (Pub. L. 110-293) (HIV/AIDS Leadership Act) to support the global response to HIV/AIDS. In order to improve program monitoring, the interagency Finance and Economics Work Group supporting PEPFAR has added reporting of expenditures by program area to the current routine reporting of program results for the annual report. Data are collected from implementing partners in countries with PEPFAR programs using a standard tool (DS-4213) via an electronic web-based interface into which users directly input data. These data are analyzed to produce mean and range in expenditures by partner per result/achievement for all PEPFAR program areas. These analyses then feed into partner and program reviews at the country level for monitoring and evaluation on an ongoing basis. Summaries of these data provide key information about program costs under PEPFAR on a global level. Applying expenditure results will improve strategic budgeting, identification of efficient means of delivering services, accuracy in defining program targets, and will inform allocation of resources

to ensure the program is accountable and using public funds for maximum impact.

Methodology: Data will be collected in a web-based interface available to all partners receiving funds under PEPFAR. To minimize the respondents' reporting burden and need for information technology investment, a new module capturing expenditure data was added to an already functional system. System upgrades now allow collection of the same information but no longer require uploading and downloading of spreadsheet templates. This approach has minimized U.S. government start up costs for the technology and will make the data collection processes more efficient.

Dated: April 1, 2013.

Deborah von Zinkernagel,

Principal Deputy, Office of the U.S. Global AIDS Coordinator, Department of State.
