RIN 2700-AE01

### NASA FAR Supplement Regulatory Review No. 1

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Proposed rule.

**SUMMARY:** NASA is updating the NASA FAR Supplement (NFS) with the goal of eliminating unnecessary regulation, streamlining overly burdensome regulation, clarifying language, and simplifying processes where possible. This proposed rule is the first in a series and includes updates and revisions to five NFS parts. On January 18, 2011, President Obama signed Executive Order 13563, Improving Regulations and Regulatory Review, directing agencies to develop a plan for a retrospective analysis of existing regulations. The revisions to this rule are part of NASA’s retrospective plan under EO 13563 completed in August 2011.

**DATES:** Interested parties should submit comments to NASA at the address below on or before June 17, 2013 to be considered in formulation of the final rule.

**ADDRESSES:** Interested parties may submit comments, identified by RIN number 2700-AE01 via the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments. Comments may also be submitted to Leigh Pomponio via email at [leigh.pomponio@NASA.gov](mailto:leigh.pomponio@NASA.gov). #### SUPPLEMENTARY INFORMATION:

##### A. Background

The NASA FAR Supplement (NFS) is codified at 48 CFR 1800. Periodically, NASA performs a comprehensive review and analysis of the regulation, makes updates and corrections, and reissues the NASA FAR Supplement. The last reissue was in 2004. The goal of the review and analysis is to reduce regulatory burden where justified and appropriate and make the NFS content and processes more efficient and effective, faster and simpler, in support of NASA’s mission. Consistent with Executive Order 13563, Improving Regulations and Regulatory Review, NASA is currently reviewing and revising the NFS with an emphasis on streamlining and reducing burden. Due to the volume of the regulation, the revisions to the regulation will be made in increments. This proposed rule is the first of three expected rules which together will constitute the NFS update

and reissue. This rule includes revisions to parts 1834, 1841, 1846, 1851, and 1852 of the NFS. Further, this rule provides notice that no regulatory changes will be made to parts 1814, 1815 (exclusive of subpart 1815.4), 1818, 1822, 1824, and 1843.

NASA analyzed the existing regulation to determine whether any portions should be modified, streamlined, expanded, or repealed. Special emphasis was placed on identifying and eliminating or simplifying overly burdensome processes that could be streamlined without jeopardizing Agency mission effectiveness. Additionally, NASA sought to identify current regulatory coverage that is not regulatory in nature, and to remove or relocate such coverage to internal guidance. In addition to substantive changes, this rule includes administrative changes necessary to make minor corrections and updates. Specifically, the changes in this rule are summarized as follows:

*Part 1815:* No regulatory changes to Part 15 but note that two corresponding clauses are revised. The pre-proposal clause at 1852.215-77 is revised to add additional information on security information required for attendance at conferences at NASA field locations. The clause entitled Proposal Page Limitations at 1852.215-81 is revised to clarify the maximum acceptable proposal page counts.

##### *Part 1834:*

1. Administrative changes are made to policy on Earned Value Management System which correct nomenclature and Web site references.

2. In Notice of Earned Value Management System provision at 1852.234-1, a requirement is added for offerors to provide a matrix that correlates each guideline in ANSI/EIA 748 (current version at time of solicitation) to the corresponding process in the offeror’s written management procedures; the rule also updates Web site and references in the provision.

3. In Earned Value Management System clause at 1852.234-2, administrative changes are made to correct nomenclature and add a Web site reference.

*Part 1841:* Subpart 1841.5—Solicitation Provision and Contract Clauses, is deleted in its entirety. Clause text at 1852.241-70, Renewal of Contract, is removed. The prescription and clause are removed because the clause at FAR 52.217-9 is sufficient to provide for a contract extension or renewal. A NASA-unique clause to address extension and renewal in a utility contract is not necessary.

*Part 1846:*

1. Subpart 1846.6—Material Inspection and Receiving Reports, is revised to align with DFAR Appendix F, facilitating comparison of NASA and DoD practices and procedures with regard to DD Form 250, especially for contractors doing business with both agencies. Administrative changes are also made to this subpart to clarify DD Form 250 preparation instructions.

2. The clause 1852.246–72, Material Inspection and Receiving Report, is revised slightly to clarify distribution requirements.

*Part 1851:* Section 1851.102–70, Contractor acquisition of filing cabinets, is deleted because it is no longer relevant or necessary.

*Part 1852:* Changes to clauses are discussed above according to corresponding NFS part.

**B. Executive Orders 12866 and 13563**

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866. This rule is not a major rule under 5 U.S.C. 804.

**C. Regulatory Flexibility Act**

NASA certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* because it mainly clarifies or updates existing regulations. In one instance, it adds new requirements to the Earned Value Management System Clause, but that clause is rarely applicable in contracts with small businesses. In several instances, this rule deletes requirements, but not to the extent that small entities would be significantly impacted.

**D. Paperwork Reduction Act**

The proposed rule contains a new information collection requirement that requires the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. Chapter 35). The collection is at 1852.215–77(c), Pre-proposal/pre-bid conference, wherein attendees at pre-proposal or pre-bid conferences will be

required to submit personal identity information. NASA invites public comments on the following aspects of the proposed rule: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information will have practical utility; (b) the accuracy of the estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. The following is a summary of the information collection requirement.

*Title:* Security Checks for Attendance at Pre-proposal Conferences. NASA FAR Supplement 1852.215–77, Pre-proposal/Pre-bid Conference

*Type of Request:* New collection.

*Number of Respondents:* 30.

*Responses per Respondent:* 12.

*Annual Responses:* 360.

*Average Burden per Response:* 0.25 hours.

*Annual Burden Hours:* 90.

*Needs and Uses:* This information collection requires contractors to supply personal identity information for attendees at pre-proposal conferences that are held at NASA facilities. The information includes, but is not limited to name, social security number, place of birth, and citizenship. NASA will utilize the information to perform security checks for entrance to NASA facilities. Without the collection of this information, NASA will be unable to permit entrance to NASA facilities for attendance at pre-proposal conferences.

*Affected Public:* Businesses or other for-profit and not-for-profit institutions.

*Frequency:* On occasion.

Written comments and recommendations on the proposed information collection should be sent to NASA, Attn: Leigh Pomponio [leigh.pomponio@NASA.gov](mailto:leigh.pomponio@NASA.gov). Comments can be received up to 60 days after the date of this notice.

To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to NASA, Attn: Leigh Pomponio, 300 E Street SW., Washington, DC 20546–0001.
