#### SUPPLEMENTARY INFORMATION:

##### I. Funding Opportunity Description

*Announcement Type:* New.  
*Catalog of Federal Domestic Assistance (CFDA) Number:* 10.604.

*Authority:* The TASC program is authorized by section 3205 of Pub. L. 107-171. TASC regulations appear at 7 CFR part 1487.

*Purpose:* The TASC program is designed to assist U.S. organizations by providing funding for projects that address sanitary, phytosanitary, or related technical barriers that prohibit or threaten the export of U.S. specialty crops. U.S. specialty crops, for the purpose of the TASC program, are defined to include all cultivated plants, or the products thereof, produced in the United States, except wheat, feed grains, oilseeds, cotton, rice, peanuts, sugar, and tobacco.

As a general matter, TASC program projects should be designed to address the following criteria:

- Projects should identify and address a sanitary, phytosanitary, or related technical barrier that prohibits or threatens the export of U.S. specialty crops;
- Projects should demonstrably benefit the represented industry rather than a specific company or brand;
- Projects must address barriers to exports of commercially-available U.S. specialty crops for which barrier removal would predominantly benefit U.S. exports; and
- Projects should include an explanation as to what specifically could not be accomplished without Federal funding assistance and why the participating organization(s) would be unlikely to carry out the project without such assistance.

Examples of expenses that CCC may agree to reimburse under the TASC program include, but are not limited to:
